STATE OF MARYLAND.

Office of the Adjutant General.

ANNAPOLIS, 1st December, 1917.

*To His Excellency, The Governor,
State of Maryland, Annapolis.*

Sir:

In accordance with the Militia Law of Maryland, Code of Public General Laws, Article 65, I respectfully submit herewith, a report upon the operations of the Military Department of the State for the years of 1916-1917.

The organized strength of the National Guard of Maryland on 1st January, 1916, will be found in Table No. 1 in the appendices to this report.

As required by Section 14, Act of Congress approved 21st January, 1903, amended by Act approved 27th May, 1908, the annual federal armory inspection of the National Guard of Maryland was commenced on the 6th and finished upon the 23rd March, 1916. The general results of this inspection exhibited an improvement and such deficiencies and defects as were noted by the inspectors were brought to the attention of organization commanders for adjustment and rectification.

To meet the requirements of the National Naval Militia Act and in compliance with the Executive Order of the Governor, the organization of the Maryland Naval Militia was enlarged and re-arranged in conformity with General Orders No. 153, Navy Department. At the same time the standard of physical examination was fixed as provided for in aforesaid general orders for all officers and enlisted men of the naval militia. The uniform as prescribed in these general orders was adopted for the Maryland Naval Militia.

The annual federal inspection of the Naval Militia of this State was held during the month of February, 1916, and the reports submitted by officers of the United States Navy, who made the inspection, developed the fact that this organization had made considerable progress since last inspection (1915). Such deficiencies and defects as were noted by the inspectors

were brought to the attention of the organization commander for the necessary and proper correction.

On the 3rd March, 1917, Major General Henry M. Warfield, retired, National Guard of Maryland, having been duly appointed by the Governor as the Adjutant General of Maryland, qualified as such, with the rank of Brigadier General, succeeding Brigadier General Charles F. Macklin.

The Militia Law of Maryland (Article 65, Code of Public General Laws) was repealed and re-enacted by the General Assembly of Maryland at its January, 1916, session (Chapter 311) to meet necessary changes and additions incident to the federal militia law.

Captain John C. Marshall, Assistant to the Acting Quartermaster General of Maryland, died in Baltimore City, Maryland, 6th April, 1916. Captain Marshall served for-thirty-two years in the United States Army and in the military service of the State for five years as a non-commissioned staff officer and eight years as a commissioned officer, with fidelity and loyalty to every duty expected or asked of him while charged with the care and responsibility for vast amounts of military stores and supplies, both federal and State-owned, handled for the National Guard of Maryland.

By Executive Order dated 8th April, 1916, and under authority of the Militia Law of Maryland, the First Company, Coast Artillery Corps, National Guard of Maryland, was authorized, and after the required preliminary inspection and acceptance insofar as the interests of the federal government were concerned, was organized and mustered into the service of the State 17th April, 1916, at Baltimore, Maryland.

In compliance with preliminary instructions from the Militia Bureau, War Department, and by authority of the Militia Law of Maryland, initial steps were taken by this Office on the 26th April, 1916, in general orders to the entire land forces of the National Guard, for a State camp of instruction and field service during the months of July and August following, but owing to subsequent national events the employment of the National Guard in the service of the United States on the Mexican Border became necessary and the intended camps of instruction

and field service were abandoned, with the exception of an officers camp of instruction at Saunders Range, 18th to 27th May, 1916, at which time the First Separate Company, Infantry, was ordered into camp at same place for field instruction and instruction in rifle practice. Although several camps of field instruction for commissioned and non-commissioned officers had been provided by the War Department, under the supervision of army officers at army posts, preparatory to such State or joint army and organized militia camps as had been contemplated, this State had only the opportunity to send three commissioned officers and five non-commissioned officers to the cavalry camp at Fort Myer, Virginia, before the National Guard was ordered into the service of the United States. These officers and men attended camp from the 21st to 28th May, 1916.

On 5th June, 1916, orders were issued for a cruise of the Naval Militia in accordance with the plans of the Navy Department, namely: a specially selected number of officers and men aboard the U. S. S. Alabama with the United States Atlantic Reserve Fleet, embarking at the Navy Yard, Philadelphia, Pennsylvania, 15th July, following. The remainder of the Naval Militia was ordered to cruise aboard the U. S. S. Montgomery within the Chesapeake Bay and navigable tributaries for a period of fifteen days commencing 29th July. The reports submitted upon these cruises by officers of the Navy indicate a progressive and satisfactory service record.

Under authority of Executive Order dated 16th June, 1916, an additional company of coast artillery was authorized but owing to the great amount of work devolving upon this Office preparatory to the induction of the National Guard into federal service under Proclamation of the President dated 18th June, 1916, the actual organization of this company was indefinitely postponed.

The President of the United States issued on 18th June, 1916, his Proclamation calling the National Guard into the service of the United States and according to its terms this State was called upon to furnish all of its organizations with the exception of certain staff, corps and department officers and men and the First Separate Company, Infantry (colored) and the First

Company, Coast Artillery Corps. Upon receipt of the Proclamation by telegraph, this Office at once sent telegraphic orders to the Commanding General, First Brigade to assemble the organizations designated at their respective armories with instructions to take immediate steps to recruit all units to the minimum strength required by the Tables of Organization as issued by the War Department; to provide for the necessary subsistence of the troops and to arrange and effect a systematic course of instruction while in rendezvous at the armories. Meanwhile this Office had closed arrangements for a mobilization camp at Laurel, Maryland. All staff, department and corps officers and men were employed on active duty at the expense of the State in connection with the expeditious concentration of troops at the mobilization camp and by the 25th June, 1917, all organizations had arrived in camp with the exception of Battery A, Field Artillery, which was necessarily delayed at its rendezvous, Fort McHenry, Maryland, by the late arrival of much of the personal equipment of the men and the organizational supplies of the battery. It, however, reached camp on the 29th June.

The staff, department and corps officers in charge of the transportation of the troops from their respective home stations to the mobilization camp performed excellent service in this respect and in handling the great quantities of personal and field equipment daily received; the purchase and issue of subsistence stores and supplies; the issue of camp equipage and impedimenta to organizations and the final transfer of the same from State responsibility to Federal control, resulted in a most satisfactory and prompt service and the manner in which the troops of this State were sent to the Mexican Border reflected much credit upon the officers of the National Guard.

The First Maryland Infantry left for the Mexican Border on the 30th June, followed by the remaining organizations, excepting Battery A, on the 5th July. Battery A was ordered to the field artillery camp of instruction at Tobyhanna, Pennsylvania, and left for that point on the evening of 6th July.

The actual strength of the troops called out by the President on the 18th June will be found in Table No. 2, and the actual

strength of the troops from this State mustered into federal service under the President's call, will be found in Table No. 3, in the appendices to this report.

After the departure of the troops from the mobilization camp the War Department established throughout the State a recruiting service for the purpose of securing the additional men required to complete the enlisted strength of the organizations from this State then in Federal service.

A number of officers of the several staff, corps and departments and a number of enlisted men, not in federal service, were mustered into federal service for this purpose and distributed at advantageous points throughout the State but the results of their efforts were disappointing and, after a period of nearly two months, all were relieved from federal service except Majors Walter W. Crosby of the Inspector General's Department and Major John Philip Hill of the Judge Advocate General's Department, who were ordered to duty at Division Headquarters, Del Rio, Texas, for Mexican Border Service.

In compliance with instructions from the War Department the First Company, Coast Artillery, was ordered to Fort Howard, Maryland, for a camp of instruction from the 17th to 31st August, 1916. This organization, although only organized a few months in advance of the camp period and without any previous opportunity to become familiar with the material of the coast artillery service, made a very creditable progress during the camp in this highly technical branch of the Army.

Instructions were received from the Division of Naval Militia Affairs, Navy Department, to send a limited number from the enlisted strength of the Maryland Naval Militia at the expense of the Government to participate in a specially prepared course of instruction in small arms practice at Winthrop, Maryland, during the months of September and October. About six from this State reported at different intervals in accordance with the prearranged schedule of attendance.

The Fourth Maryland Infantry, having been relieved from further duty on the Mexican Border, arrived at Laurel, Maryland, the point selected for demobilization, early in September, 1916, and after adjustment of regimental and company prop-

erty accounts, were mustered out of federal service on the 26th September and returned to State service and control with fifty-five officers and seven hundred and twenty-seven men, a total of seven hundred and eighty-two—sixty-one enlisted men less than on the date of muster into federal service. This difference is accounted for by discharges on account of dependant relatives, transfer to national guard reserve, discharges to enlist in the regular army, etc.

The National Matches scheduled for 1916 were held upon the Florida State camp grounds near Jacksonville, Florida. Two teams from Maryland participated, one from the National Guard, composed of officers and men in, and not in, the federal service, and another team composed of civilians, members of recognized rifle clubs affiliated with the National Rifle Association of America—the first time in the history of the National Matches that civilian teams were permitted to participate.

Battery A, Maryland Field Artillery, having been relieved from further duty at the artillery camp of instruction, Tobyhauna, Pennsylvania, was mustered out of Federal service on the 6th October, 1916, and returned to State service and control at its home station, Baltimore.

The First Maryland Infantry was relieved from duty on the Mexican Border and returned to Baltimore, Maryland, where it was quartered in the armory of the Fifth Regiment pending the adjustment of property accounts and completion of necessary details incident to muster out. The regiment was mustered out of federal service on the 4th November, 1916, and returned to State service and control. Headquarters and all units were immediately returned to their respective home stations the same day.

Brigadier General Charles D. Gaither, First Brigade, who was in command of the Maryland troops from Maryland in service on the Mexican Border, and staff, were relieved from further duty and returned to home station, Baltimore, where, on the 3rd November, 1916, they were formally mustered out of Federal service and returned to State service and control.

Troop A, Maryland Cavalry, having been relieved from further duty on the Mexican Border, returned to its home station,

Pikesville, Maryland, and after adjusting their property accounts and completing all details incident to muster out, were mustered out of federal service and returned to State service and control, 23rd December, 1916.

The organized strength of the National Guard of Maryland and of the Maryland Naval Militia, as of 1st January, 1917, will be found in Table No. 5, in the appendices to this report.

As required by Section 93 of the Act of Congress approved 3rd June, 1916 (known as the National Defense Act), the annual inspection of all organizations of the National Guard (not in Federal service) was held during the period commencing 18th January and ending 22nd February, 1917. The results of this inspection, by army officers, were supplied by the War Department and indicated improvement since last inspection. Such deficiencies and defects as were noted by the inspectors were communicated to the organization commanders concerned for appropriate attention and correction.

Field Hospital No. 1 and Ambulance Company No. 1 having been relieved from further duty upon the Mexican Border returned to their home station, Baltimore, where, after the usual preliminaries incident to closing their property accounts and federal records, both companies were mustered out on the 6th January, 1917, and returned to State service and control.

Following the usual custom of the past this Office, in January, 1917, issued general orders granting to the National Guard of all the States, Territories and the District of Columbia, permission to enter and pass through Maryland armed and equipped for the purpose of attending the inauguration of the President of the United States 4th of March following. Such military colleges and schools of the country that applied for similar permission were accorded the same by special orders.

The Fifth Maryland Infantry having been relieved from further duty upon the Mexican Border returned to its home station, Baltimore, where, after a few days required to adjust the property accounts and records of the federal government the regiment was formally mustered out on 24th February, 1917, and returned to State service and control. This regiment was the last of all organizations from Maryland to be relieved from

Mexican Border service under the call of the President dated 18th June, 1916, and it is a very great pleasure to state that of all the officers and men from the National Guard of Maryland in this service only one casualty occurred—being the accidental drowning of one member of Company C, Fifth Maryland Infantry.

On the 4th March, 1917, Your Excellency, accompanied by your military staff, attended the inauguration of the President of the United States in Washington. At the same time the entire National Guard of Maryland, less the Fifth Maryland Infantry, participated in the parade incident to the inauguration, with great credit to the State.

By Executive Order dated 21st March, 1917, promulgated in general orders by this Office, the regulations heretofore issued governing the professional and physical qualifications of all commissioned and warrant officers of the Maryland Naval Militia were amended to conform with the latest rules and regulations of the Navy Department. Officers in this organization who were at that time holding probationary commissions and who thereafter were commissioned on probation were ordered before a board of examiners designated by the Navy Department, the members of which being first recommended to the Department by this Office. The scope of the examination, including the classification of subjects for each and all grades, was prepared by the Navy Department. Officers who successfully passed these examinations were duly notified of the fact by the Division of Naval Militia Affairs, Navy Department, through this Office, and thereupon this Office made their commissions permanent.

On the 25th March, 1917, the Proclamation of the President of the United States calling the Fourth Maryland Infantry into Federal service was received and the necessary orders were at once issued for the mobilization of the regiment at its armory in Baltimore.

The seriousness of the situation incident to the formal declaration of war against Germany, made it advisable for this State to accord military protection to the bridge properties of the two important railroad systems that cross the Susquehanna

River at Havre de Grace and Perryville, and accordingly, on the 21st March, this Office ordered Companies D and E, First Maryland Infantry, with the authorized sanitary personnel, to these points. Major Milton A. Reckord, First Infantry, was placed in command of the troops on guard. That the service rendered was highly satisfactory is evidenced that no untoward incident occurred requiring repressive measures and not the slightest interruption of the heavy traffic over these lines occurred. Owing to the extended lines of the guard it was found necessary to increase the number of men on duty and on the 25th March, Company H, First Maryland Infantry, was ordered to report to Major Reckord.

To guard against the possibility of the water works of Baltimore City or the water supply therefrom for the city being injured or interfered with, it was deemed necessary to extend military protection and, accordingly, on the 4th April, four companies from the Fifth Maryland Infantry, were ordered to Lake Montebello, Baltimore, for guard duty.

At six o'clock in the evening of 6th April telegraphic orders were received from the Secretary of the Navy to mobilize the Maryland Naval Militia. Orders were immediately dispatched to Commander Charles F. Macklin to assemble his command in its armory in Baltimore and by midnight of that date the organization's commander reported his command mobilized. Subsequently this Office granted the Naval Militia permission to mobilize at Saunders Range, where the organization, with sundry detachments from the National Naval Volunteers and the regular Navy, encamped for instructional purposes throughout the summer until late in October following.

On the 13th April, telegraphic orders were received from the Commanding General, Eastern Department, calling the Fifth Maryland Infantry into Federal service and this Office at once issued the required orders mobilizing the regiment at its armory in Baltimore.

By Executive Order dated 14th April, 1917, three additional companies of coast artillery were authorized as a part of the National Guard of Maryland. Accordingly, under orders from this Office these companies were organized, and after receiving

the federal inspection required by the War Department for purposes of federal recognition, were mustered into the National Guard on the 16th, 17th and 19th April, at Baltimore, and designated Second, Third and Fourth Companies, Coast Artillery, National Guard of Maryland. Subsequently, permission was received from the War Department to organize these companies into a battalion, and Major Carroll Edgar was appointed commanding officer with the prescribed battalion staff.

The Militia Bureau, War Department, on the 4th May, authorized this Office to select a certain number of enlisted men from the National Guard to attend the Reserve Officers' Training Camp at Fort Myer, Virginia, in June following, for the purpose of qualifying for commissions in the various branches of the Officers' Reserve Corps, United States Army. Selections were restricted to twenty-five men from each regiment, twelve from Coast Artillery and two from each separate company, including the battery and troop. The qualifications required of men selected to insure their acceptance at the training camp were very high and insured desired personnel. Twenty-six principals were designated from the First Infantry; two principals and two alternates from Troop A; two principals and two alternates from Battery A and eight principals and five alternates from the four companies, coast artillery. As no official reports were ever furnished this Office, it is not known how many were accepted, qualified and commissioned.

The War Department having authorized a National Guard Medical Officers' Training Camp, in compliance with instructions from the Militia Bureau, this Office on the 12th May furnished the names of four commissioned officers, three sergeants, first-class, seven sergeants and twelve privates, first-class, Medical Department, National Guard of Maryland, and pursuant to telegraphic orders from Headquarters Eastern Department, these officers and men left about the middle of June for a three months' training at the camp located at Fort Oglethorpe, Georgia.

On the 22nd May, 1917, the War Department directed that the National Guard be immediately recruited to war strength and this Office at once ordered all organization commanders to

begin the recruiting required and placed every available means and resources at its disposal to facilitate the great amount of work involved in this respect, having in mind that many men would of necessity be rejected on account of physical disqualifications and that men with dependants could not be accepted except under the most favorable conditions insofar as the individual was concerned. The entire State was visited by many recruiting parties and with few exceptions every unit in the National Guard of Maryland before induction into federal service had obtained the maximum enlisted strength.

On 3rd July, 1917, the President of the United States, by Proclamation, designated the organizations from the National Guard of Maryland to be inducted into Federal service on the 25th July, 1917, and excepted only certain staff, corps and department officers. Accordingly, this Office in general orders No. 60, directed:

Headquarters First Brigade,
First Regiment, Maryland Infantry,
First Separate Company, Maryland Infantry (colored),
Maryland Field Hospital No. 1,
Maryland Ambulance Company No. 1,
First Battalion (Headquarters and four companies)
Maryland Coast Artillery,
Troop A, Maryland Cavalry,
Battery A, Maryland Field Artillery,

to assemble at their respective armories on Wednesday, 25th July, 1917, at nine o'clock A. M., and in the same order all reservists of the National Guard of Maryland were directed to report for duty to the nearest National Guard unit. The organization included in General Orders No. 60 with the Fourth and Fifth Regiments, Infantry, already in service, placed the entire National Guard of Maryland in Federal service with the exception of three staff and corps officers.

By Executive Order dated 23d July, pursuant to the authority of the Secretary of War, of same date, two additional batteries of field artillery were authorized as a part of the National Guard of this State. In general orders from this Office of the

same date Battery B was immediately organized and having received the required preliminary inspection by an officer of the Army, to insure federal recognition, was mustered the same date into the National Guard of Maryland, and, automatically, became subject to the provisions of general orders No. 60, from this Office, already referred to herein.

Battery C was ready for organization on the 24th July, and after the required federal inspection, was, on the same date, mustered into the National Guard of Maryland, and became similarly subject to the provisions of the aforesaid general orders No. 60.

On 25th July, 1917, by the terms of the Proclamation of the President of the United States, and in conformity with the provisions of orders from this Office, all organizations of the National Guard of Maryland, and all officers and men of the several staff, department and corps, except those excluded by specific reference in the President's Proclamation, had been inducted into the service of the United States.

The President's Proclamation provided for the draft of the National Guard into the Army of the United States, as provided for in the National Defense Act, 3rd June, 1916, which, accordingly occurred on the 5th August, 1917, when the officers and men of the staff, corps and departments and the organizations of the National Guard of Maryland inducted into Federal service on the 25th July, 1917, lost entirely their National Guard status, and became in fact a part of the Armies of the United States. Subsequently, several officers and men of the Judge Advocate General's Department, the Inspector General's Department and the Quartermaster Corps, were mustered into the service of the United States and today there remains only one officer in the Medical Corps, one officer in the Quartermaster Corps and one officer in the Ordnance Department, who have not been called into Federal service.

Tables No. 6 and No. 7, in the appendices to this report give the numerical strength of the National Guard (and the Naval Militia) (a) as called into Federal service and (b) as drafted into the Armies of the United States.

In view of the withdrawal of the National Guard from con-

trol of the State authorities and from duty within the State as federal troops, the Legislature of Maryland at its Extraordinary Session of June, 1917, added additional sections to Article 65, Code of Public General Laws of Maryland, known as the "Militia Law," providing for the organization of the Maryland State Guard to consist of not more than one regiment of infantry whose strength shall not exceed one thousand officers and men. (Chapter 26, Acts of 1917). Accordingly, on the 4th August, 1917, by Executive Order of the same date, this Office authorized the organization of one regiment of infantry to consist of the necessary Field Officers, headquarters and supply companies and twelve companies of the line. It is planned to distribute the companies so as to place the headquarters and supply companies and six companies of the line in Baltimore City and the remaining six companies in such cities or towns throughout the State as will meet the military necessities and exigencies best, preferably in cities and towns already supplied with State-owned armories. It is gratifying to note that many applications have been received from every part of the State tendering services in organizing the new regiment and seeking commissions as officers in the same. I regard the State as fortunate in securing the services of former officers of the National Guard of Maryland as the field officers of the new regiment, which has been officially designated as the Second Infantry, Maryland State Guard, namely:

Major General Clinton L. Riggs, Retired, formerly
The Adjutant General, as Colonel;

Former Major Irving Adams of the Fifth Maryland
Infantry, as Lieutenant Colonel;

Major David W. Jenkins, Infantry, from the unassigned list,

Captain Jesse Slingluff and Captain Thomas S. Janney, both of the Retired List, as Majors.

These officers have entered upon their duties with a zeal and enthusiasm that is highly gratifying and will undoubtedly develop a successful and efficient organization. A number of companies have already been mustered in—four in Baltimore City, one in Hagerstown and the other in Frederick. Officers for

these companies have been selected and commissioned and satisfactory progress is being made in respect to organization of remaining companies. The "Motor Battery of Baltimore City" having applied to be admitted to the regiment as a machine gun company, authority was given to accept the battery and muster it in as a machine gun company. This additional company completes the regimental organization as outlined in Tables of Organization for former National Guard regiments.

THE SELECTIVE SERVICE LAW,

Act of Congress,

approved 18th May, 1917.

The Congress of the United States at its first session (65th Congress) passed the Selective Service Law which received the approval of the President 18th May, 1917. The object of this law is the registration of a certain proportion of the available men of the country liable for military service and the selection from such registration of such quotas as from time to time may be called for immediate service in the armies of the United States during the present war against Germany. The law provides for the registration of all men, irrespective of national, physical or social conditions, who have reached the age of twenty-one years and who have not reached the age of thirty-one years, as of 5th June, 1917, on which date the registration was held. Under the terms of the law, the President, through the Office of The Provost Marshal General of the Army, issued a very complete system, with necessary rules, regulations and forms, for the registration, the subsequent call of quotas, the selection from the list of registrants, the examination of men selected, their acceptance for military service, or exemption, and their induction into service. The Governor of the State was, under the regulations, made the central power and, acting through the Office of The Adjutant General, executed the application of the law and regulations as called upon by the President. The Adjutant General of the State was made the Disbursing Officer and Agent of the United States in the disbursement of federal funds to meet the expenses of operating the Selective Service Law, and, in addition to this important duty,

was, by the President's regulations, given general supervisory powers and executive duties in the process of the law and its application during the various stages leading up to the actual delivery of the men finally selected into camp. The utmost impartiality and fairness of the law as administered under the regulations of the President is evidenced by the manner in which the men selected responded to their call and the absence of complaint. The handling of this work involved a tremendous amount of additional work in this Office. This Office acted also in an advisory capacity to the Local and District Boards and to the citizens of our State who were interested in the operations of the Selective Service Laws. The registration in Maryland on the 5th June, 1917, resulted as follows:

Classification of Registrants.	White.	Colored.	Total.
Legislative, Judicial or Executive Officials..	165	2	167
Persons totally disabled.....	1,454	188	1,642
Dependent Relatives indicated.....	49,648	12,432	62,080
Occupational exemptions.....	3,375	533	3,908
Cards indicating no exemptions.....	34,406	9,637	44,043
Total, Native and Naturalized.....	89,048	22,792	111,840
Aliens			7,602
Alien Enemies.....			896
Aggregate number of registrants.....			120,338

Immediately after the registration had been completed the President, upon your recommendation, appointed the local boards, each consisting of three members, and the district boards, each consisting of five members. Such clerks and additional examining physicians as were necessary were authorized by the President and appointed by the Boards upon the approval of this Office. Fifty-three local boards and three district boards were appointed and distributed as follows:

Political Unit.	District Boards.	Local Boards.
Baltimore City.....	1	24
Allegany County.....	..	2
Baltimore County.....	..	4
Frederick County.....	..	2
Washington County.....	..	2
For each remaining County (19) one each.....	..	19
For all Eastern Shore Counties.....	1	..
For all Western Shore Counties.....	1	..
Totals.....	3	53

All Boards promptly organized and as near as possible located their headquarters centrally within their respective jurisdiction, and the actual work of selecting men under the first quota required of this State, seven thousand and ninety-six, began with a celerity and absence of friction that reflects great credit upon the personnel of the Boards. Owing to many causes that arose after the actual examination and selection of men had begun, principally from physical rejections, claims for exemption on the ground of dependants, industrial or agricultural occupations and in a number of cases where registrants made no claim for exemption through nonculpable ignorance on their part to understand their right to do so under the law, a great many more men were necessarily called for examination than had been anticipated would be necessary. To secure the quota of seven thousand and ninety-six men from this State it was necessary to examine and pass upon approximately twenty-one thousand registrants.

The quota from this State was sent to camp in five increments, the first shipment being made upon 26th September and the final shipment on 22nd November, 1917. All men were delivered at Camp Meade, Admiral, Maryland.

The cost to the Government to complete the first quota from Maryland was eighty-one thousand, eight hundred dollars and seventy-four cents, or a per capita cost of eleven dollars and fifty-three cents for each man sent to camp, exclusive of the cost of transportation, subsistence en route and the cost of initial outfit of clothing and equipment issued in camp. These figures are as of the date of preparation of this report, but there are further payments to be made, the vouchers for which have not been received.

In submitting this report, your attention is called to the fact that the years 1916 and 1917 were the most important in the history of the National Guard. On June 3rd, 1916, the President approved the Act of Congress, known as the National Defense Act, which materially changed the status of the National Guard, so that it was, from that date a National Guard of the United States and of the State of Maryland. Fifteen days after the signing of this Act, on June 18th, 1916, practically all

of the National Guard was called into Federal service under this Act and the manner in which it responded, and the smoothness with which the mobilization was carried out reflects great credit upon the officers of the National Guard, who had not had time to familiarize themselves with the new law, and it is with great pride that I can report to you that the mobilization of the National Guard of this State in 1916 was so handled as to be favorably commented upon by the officers at the Headquarters of the Eastern Department, Governors Island, New York.

As previously stated in this report, the National Guard was again called into Federal service in 1917, to take its part in the war against Germany, and every officer and man responded with a spirit of patriotism and loyalty which has made the Maryland soldier famous in every war of this country.

Under the National Defense Act, the President was authorized by Section III of this Act to draft into the Federal service the entire National Guard of the country, or such individuals or part of the National Guard as the President might decide upon. Exercising this authority, under date of August 5th, 1917, the President drafted the entire National Guard, with a few exceptions into the service of the United States, and under the provisions of Section III, the officers and men of the National Guard so drafted, stood discharged from the National Guard. The net result of this is that the States today have no National Guard organizations such as existed prior to August 5th, 1917, and it is impossible to know at this time what the situation will be in this connection at the close of the War. It is the opinion of this Office that none of the organizations will return to the State service as such, and whether the Government will authorize the re-organization of the National Guard after the War is a question upon which there is no evidence at the present time to warrant a prediction.

The State has turned over to the Government all the equipment which it had on hand for the National Guard. This necessitated the purchase of practically everything needed for the regiment of the Maryland State Guard now being organized. Chapter 26 of the Acts of the Extraordinary Session of the Legislature of 1917 authorized the formation of the Maryland

State Guard, limiting the State Guard to not exceeding 1,000 officers and men. This force is for purely State service, for duty within the State of Maryland. The Executive Committee of the Maryland Council of Defense under which the expenditure of funds appropriated by the Legislature for emergency purposes are made, has authorized the organization of one regiment of infantry, not to exceed 800 men, and the organization of this regiment is now in process, and is progressing very satisfactorily. There has been considerable difficulty in procuring equipment, but contracts have been let for most of the equipment required, and some has been delivered, or is being delivered at this time. Up to the present time we have been able to procure only 350 rifles and 15 rounds of ammunition per rifle from the Government, but expect to receive an additional supply later. This Regiment is to be organized in Baltimore City and in the counties of the State.

The armories owned by the State, and also those under lease are being used when requested for meetings and other purposes connected with war preparation, and every assistance possible is being accorded all those interested in assisting the Government by this Office. It is the policy of this Office to grant the use of the armories for purposes as indicated, making only a charge sufficient to cover the actual expense of operating the armory for the time it is used. In some instances, no charge is made where there are no funds from which it can be paid, the idea of this Office being that the armories should be used during this war for any purpose whose aim is the advancement of the Government's military preparation in this great emergency.

The Selective Service Law, passed by Congress and signed by the President May 18th, 1917, is being administered by the Provost Marshal General at Washington, and in this State through the office of the Adjutant General under direction of the Provost Marshal General. It is with great pleasure that I can report to you the practical completion of the first draft under this Law. This has been accomplished, I believe, in a manner that has satisfied the citizens of the State, and for the fairness and justice with which it has been carried out we are greatly indebted to the faithful and painstaking work on the

part of the members of the Local and District Boards. On the 15th day of December the work of classifying all those registrants who have not, on that date been sent to a mobilization camp, commences and it is the desire of the Provost Marshal General that this work be completed within sixty days from that date, and the Local and District Boards, and all those connected with this work have been urged by this Office to use every effort to have this completed within the prescribed time.

Major John deP. Douw, Quartermaster Corps, National Guard of Maryland, who was appointed Assistant to the Adjutant General has performed the work of the Office, particularly in connection with the Selective Service Law in a most efficient manner. The War Department has assigned Captain Benjamin C. Gott an officer in the U. S. Reserve Corps, for duty at this Office, and he has reported and will act as U. S. Disbursing Officer. Captain Gott had been in the employ of the State since 1908.

On closing this report, I wish to testify to the faithful, efficient and loyal co-operation of all those connected with this Office, and the members of the Local and District Boards and those who have been called upon throughout the State in connection with the Selective Service Law.

It is also with gratification that I report to you that the National Guard from Maryland has held its own with the National Guard of other States in the intensive training which has been going on preparatory to their being sent to France. A portion of the National Guard of Maryland is now in France.

Respectfully submitted,

HENRY M. WARFIELD,

The Adjutant General.

(General Orders No. 66, last of series of 1915.)

STATE OF MARYLAND,
OFFICE OF THE ADJUTANT GENERAL,

ANNAPOLIS, 3rd January, 1916.

General Orders No. 1.

I. In accordance with the requirements of Section 14, Act of Congress approved 21st January, 1903, as amended by Act of Congress approved 27th May, 1908, an inspection of the several organizations of the Maryland National Guard, hereinafter designated, will be made by officers of the United States Army detailed for that purpose by the Commanding General, Eastern Department, and upon dates given in the schedule herewith.

Particular attention is directed to the fact that this inspection is separate and distinct from inspections by officers of the Inspector General's Department, Maryland National Guard.

II. Organizations will be inspected in the Field Service Uniform, and without overcoats and blanket rolls.

III. The inspection will include all property available for field service, or for use in connection therewith, or required preparatory thereto, whether the property belongs to the United States or not.

The inspection is made for the purpose of determining the readiness and efficiency for field service and it is required that all articles of uniform clothing and equipment required for such service shall be on hand.

Attention is called to the requirements of Circular No. 15, Division Militia Affairs, series of 1914.

Field Ranges must be cleaned and placed in condition for immediate use and with each must be the necessary complement of cooking utensils.

The inspection of property will be made during daylight. No property not actually inspected, except Government publications and such articles of officers' equipment as are not required to be worn on the person, will be included in the inspection reports. Memorandum receipts will not be considered nor accepted by the Inspector; he must see the property, inspect and count it. Special attention will be given by the inspecting officer to the daylight inspection of rifles and pistols and also to the amount of cleaning material on hand. (see Circular No. 16, Division of Militia Affairs, series 1911.)

During the inspection of property, the responsible officer or an authorized commissioned officer of the command being inspected, must be present with sufficient assistance to properly facilitate the work; the property must have been previously assorted, conveniently and neatly arranged for inspection.

IV. The personnel of organizations will be inspected at night except where otherwise indicated in the schedule herewith.

Officers and enlisted men temporarily absent from home station at the time of inspection of their organization, may be attached for inspection to any other organization upon proper application by the immediate commanding officer to the Brigade Commander.

Field, staff and non-commissioned staff officers of the 1st Infantry will report for inspection at the nearest station and upon the date fixed for inspection of the personnel of such troops located at said station.

Transportation only is authorized. The Commanding Officer, 1st Infantry, will issue the necessary orders in this instance. Copies of such orders will be supplied to the inspecting officers, the Acting Quartermaster General of the State and this Office ten days *prior* to date of inspection concerned.

V. The inspection of records of organizations and the obtaining of data required by the inspecting officer may take place as mutually agreed upon, between commanders and the inspector concerned. If not already in such condition, all records will be promptly written up. The 1st Sergeant's roll book and other records pertaining to drills, must be ready for submission to the inspector, showing dates on which drills were held, number of men present and character of drill or instruction given. *Verbal statements as to drills, attendance thereat, and the character of drills or instructions given will not be accepted.*

The files of retained copies of all enlistments and re-enlistments of the entire enlisted strength of the organizations as of the date of inspection will be conveniently arranged in case information is desired by the inspector. Retained copies at all times, but particularly so upon date of inspection, *must be exact duplicates of the originals on file in the Office of The Adjutant General.*

VI. Organization commanders will require all officers and enlisted men under their respective control to turn in and have ready for inspection all articles of uniform clothing and equipment that may for the time being be in their personal custody and not stored in the armory or storeroom. All clothing and equipment will be properly cleaned.

VII. In order that the allotment from the annual appropriation by the United States to the State of Maryland shall remain unimpaired, it becomes the duty of organization commanders to require the attendance and to use every available means to secure the same on the part of the enlisted men of their commands at the annual armory inspections by officers from the United States Army as required by Section 14, Act of Congress, approved 21st January, 1903.

In exact proportion to the allotment made to the State of Maryland out of this appropriation, will be the ability of this office to adequately meet the requirements of both the State and Federal Laws. It is thus seen that organization commanders must more than ever before exert every effort to have the greatest number of their enlisted strength present at Federal inspections.

VIII. The following schedule of dates having been approved by the Commanding General, Eastern Department, are fixed by the Commander-in-Chief:

STATE OF MARYLAND,
OFFICE OF THE ADJUTANT GENERAL,

ANNAPOLIS, 5th January, 1916.

General Orders No. 2.

I. The several forms heretofore authorized and prescribed for official use by all officers accountable for all public property, are corrected to conform to those now in use or may hereafter be adopted for use by the Quartermaster's Department, United States Army. The specifications for these forms as prepared by the Acting Quartermaster General of the State are approved and will be used by all concerned until otherwise ordered.

II. From and after this date there is authorized for the members of the rifle team from Maryland in the National Matches a *Brassard* to conform in appearance and dimensions to the following specifications:

to be made of khaki cloth, olive drab, four and three-quarters inches in length; one inch in width; the letters and figures to be of block type, three-eighths inch in height, worked in with gilt thread and slightly raised. An edging of gilt thread to complete the brassard. It will be worn on the left sleeve of the field service uniform, four and one-half inches above the edge of sleeve.

III. 1st Lieutenant *Charles M. Saxelby*, Battalion Adjutant, 5th Infantry, Maryland National Guard, having tendered his resignation, the same is accepted and he is hereby granted a Full and Honorable Discharge as of this date.

BY ORDER OF THE GOVERNOR:

CHARLES F. MACKLIN,

Official.

GENERAL.

1. All matches will be under the supervision of the Executive Officer, who will select and appoint the necessary range officers, and employees, and arrange all necessary details for carrying them on.

2. Contestants in all matches must have performed seventy-five per cent. of all military duty during the preceding twelve months.

In the event of a contestant not having been a member of the Mary-

land National Guard for a period of twelve months, he shall have performed ninety per cent. of all military duty during the period in which he has been a member. A certificate attesting to this duty must be filed with all entries.

3. Field service uniform will be worn by all contestants, such uniform to be of type similar to regulation issue. Failure to comply with this provision will disqualify contestant.

4. The decision of the Executive Officer shall be final, except that a written protest may be filed and forwarded through him to The Adjutant General of the State for review and final action, provided such be filed within forty-eight hours after the match is finished.

THE NATIONAL DEFENSE TROPHIES.

AUTHORIZED PARTICIPANTS.

The following organizations of the Maryland National Guard:
Each Company, Troop and Division of the Naval Militia.

ELIGIBILITY.

No unit can be considered to have qualified to compete for the trophy unless a total of thirty-five men have qualified as second-class men or better in the course of known distance practice prescribed for the organized militia or the regular army.

CONDITIONS IMPOSED FOR AWARD OF TROPHY.

The unit qualifying the greatest number of marksmen or better will be awarded the trophy with the exception that no unit can be given credit for qualifying more than one hundred per cent. The report submitted is to be made on the number of men qualified and not on the figure of merit obtained.

Units shall not be given credit for having qualified one hundred per cent. of strength unless all names (including those discharged or dropped) appearing on the roll 30th September have qualified.

All qualifications must be made under the course prescribed for the organized militia or that of the regular army, whichever has been adopted by the State at the time of the match.

All qualifications must be made prior to 1st November.

When two or more organizations qualify all of their men, or one hundred per cent. of strength, as marksmen or better, the figure of merit of these organizations will determine the winner.

The ruling in the Firing Regulations which carries over qualifications **SHALL NOT APPLY TO THIS TROPHY.** No credit will be given for a qualification as marksman assumed. The minimum score necessary to qualify a man as marksman or better (at the various ranges) must have actually been shot in the year for which the trophy is claimed.

AWARD OF TROPHY.

FIRST HONORS: Award to the company, troop or division qualifying the greatest number of marksmen or better during the target year.

SECOND HONORS: To the second unit.

The unit winning the trophy shall be awarded the same before the 10th January succeeding the winning. The trophy shall be held by it until the first of the following December, when the trophy will be returned to the Adjutant General to be prepared for the next winner.

THE NATIONAL TROPHY.

Regulations as provided by the War Department in Circular No. 5, Division of Militia Affairs, dated 14th March, 1914.

1. The trophy shall be awarded annually to that company of Infantry, Coast Artillery, Engineers, or troop of Cavalry of the Organized Militia, or division of the Naval Militia of each State, Territory of Hawaii, and District of Columbia, firing in the course prescribed for the organized militia, or the course prescribed for the Regular Army, which attains the highest figure of merit in the State, Territory of Hawaii, or District of Columbia, provided that the figure of merit shall be computed by multiplying—

- (a) The number of expert riflemen, sharpshooters and marksmen by.....1.00
- (b) The number of first-class men by..... .60
- (c) The number of second-class men by..... .40

and adding the products thus obtained, and provided the trophy shall not be awarded to any organization which fails to qualify as second-class men or better 75 per cent. of the total number of enlisted men borne on the rolls of the organization during the target practice season.

2. On February 1 of each year, commencing February 1, 1915, each Adjutant General of the several States, Territory of Hawaii, and the District of Columbia, shall report to the Secretary of War, through the Division of Militia Affairs, the name of the organization to which the award is to be made for the past year in compliance with paragraph 1, together with a report of qualification of the organization, including the computation of the figure of merit. This report will be accompanied by a certificate from the Adjutant General of the State, Territory of Hawaii, or the District of Columbia, to the effect that to the best of his knowledge and belief the scores set opposite the name of each officer and enlisted man are bona fide scores, made as prescribed in the Small Arms Firing Manual.

3. Upon receipt of the order of the War Department making the award of the trophy, the Adjutant General of the State, Territory of Hawaii or the District of Columbia, will present the trophy for the United States to the organization, to be retained by it for one year, together with certificate of award forwarded by the War Department. (D. M. A. 42115.)

THE WALTER WINAN'S PISTOL MATCH.

PRIZE.

A trophy presented by Mr. Walter Winan, of England, for annual competition, with a medal from the State to the three highest contestants.

INSTRUCTIONS GOVERNING TROPHIES.

TIME OF AWARD.

All trophies contested for in the State matches will be delivered to the successful contestant (individual or company or regiment, as the case may be) by The Acting Quartermaster General of the State, as soon as practicable after close of target season. The trophies will be held until the first of September of each year on which date they will be returned to The Acting Quartermaster General of the State to be prepared for the next winners.

STYLE AND WORDING OF ENGRAVING.

The style and wording of engraving on all trophies will be of uniform size and character. It will be done under the direct supervision of The Acting Quartermaster General of the State.

REPAIRS AND ALTERATIONS.

Whenever repairs or alterations or additions of any kind are necessary or deemed desirable, they will be made by The Acting Quartermaster General.

CUSTODY OF TROPHIES.

The custody of trophies shall devolve upon the commanding officer of the organization to whom the individual or company belongs. He is authorized to permit trophies won by companies and individuals of his command to be displayed in the quarters of the company so entitled to exhibit them, provided, in his judgment, such display can be made with safety in every respect; otherwise the trophies must be kept at regimental headquarters. In case of separate organization, or members thereof, are winners of trophies, the commanding general of the brigade shall determine the proper place for display.

INSTRUCTIONS GOVERNING THE ISSUE OF MEDALS AUTHORIZED IN CONNECTION WITH TROPHIES AWARDED IN THE STATE MATCHES.

MEDALS AND WORDING OF MEDALS.

Medals awarded to individuals in connection with the State Matches shall be of the model and wording approved by The Adjutant General of the State. Alteration of the same shall be done upon the approval of The Adjutant General and under the supervision of The Acting Quartermaster General.

TIME OF AWARD.

As soon after the annual publication of the results of the target season.

ISSUES: TO WHOM AND HOW MADE.

The State, through The Acting Quartermaster General thereof, after notification received from The Adjutant General, will issue to the commanding officer of each regiment and separate organization and to the commanding general of the brigade for his headquarters and attached department and corps officers and enlisted men, the medals that have been won by the members thereof. The officer receiving the same shall give his receipt to The Acting Quartermaster General for such medals so received; a memorandum copy of such receipt shall be retained by the officer signing original copy. The receipt shall be complete as to description of medals and the name and rank of individuals to whom they are to be delivered.

The delivery of medals to the winners thereof may be made in such manner as the organization commander concerned shall direct; provided, however, that a receipt therefor is taken and kept in the permanent records of headquarters of the organization.

DUPLICATES OF MEDALS ISSUED.

A duplicate of a medal issued will not be made by the State to any individual except upon evidence showing that the original medal has been lost or destroyed beyond reasonable means of recovery. The applicant's statement must be complete as to dates, places and circumstances connected with alleged loss or destruction, and will be forwarded through the proper channels.

The cost of duplicate medals must be borne by the applicant.

THE ISSUE OF AUTHORIZED DECORATIONS FOR QUALIFICATION IN SMALL ARMS PRACTICE.

AUTHORIZED PATTERN.

The decorations authorized by the Firing Manual, 1913, for award to officers and enlisted men of the organized militia qualifying as marksmen, sharpshooters and experts with the rifle and similarly with the pistol, shall be of the pattern authorized by the War Department.

ISSUE.

The issue of small arms decorations shall be made in the manner herein provided for issue of medals for award in the State Matches. The receipts therefor will be separate and distinct from the receipts required for medals.

DUPLICATES.

The regulation governing issue of duplicate medals of the State Matches will be followed by applicants for a duplicate of a small arms decoration.

CERTIFICATES OF AWARD.

1. As soon as practicable after the target season in which successful contestants in the State Matches have been declared winners in general orders from The Adjutant General's Office, a certificate of award will be mailed through the commanding officer of the organization to which the winner belongs.

2. The certificates of award shall be of three classes:

THE REGIMENTAL TEAM CERTIFICATE.
THE COMPANY TEAM CERTIFICATE,
THE INDIVIDUAL CERTIFICATE.

These certificates will be of appropriate design and so phrased as to show the match in which the holder participated and became the winner.

3. Certificates will be awarded as follows:

- (a) To the regiment whose team has been declared the winner of a match.
- (b) To the company, troop or division of Naval Militia, whose team has been declared the winner of a match.
- (c) To each winner of matches provided for and participated in by individuals.

4. The Certificates of Award will be authenticated by the signature of The Governor and Commander-in-Chief and the signature of The Adjutant General of the State, with the Great Seal of Maryland attached thereto.

BY ORDER OF THE GOVERNOR,

HENRY M. WARFIELD,

Official.

The Adjutant General.

STATE OF MARYLAND.

OFFICE OF THE ADJUTANT GENERAL.

ANNAPOLIS, 17th June, 1916.

General Orders No. 31.

1. The following decision of The Secretary of War is published for the information and guidance of all concerned:

M. B. 210.692.

WAR DEPARTMENT.

MILITIA BUREAU.

WASHINGTON, June 15th, 1916.

From: The Chief of the Militia Bureau.

To: The Adjutants General of all States and the District of Columbia.

Subject: Detail of Surveying Officers.

1. The Secretary of War directs that on and after July 1, 1916, United States property lost, damaged, destroyed, or rendered unserviceable by fair wear and tear in service be not subjected to survey proceedings unless the examination is made by an officer detailed by him, as provided in Section 87, Act of Congress, approved June 3, 1916.

2. Until July 1, 1916, the Secretary of War approves and affirms the detail of such surveying officer by the Governors of the several States and the Commanding General of the National Guard of the District of Columbia.

(Signed) A. L. MILLS,

Brig. Gen. General Staff. (400.)

II. Upon the recommendation of The Commanding General, 1st Brigade, 1st Lieutenant *Richard P. McNicholas*, 5th Infantry, is hereby withdrawn from the active list and placed upon the unassigned list as of this date. (2700-M.)

III. For administrative and instructional purposes *1st Company*, Coast Artillery Corps, Maryland National Guard, is hereby attached to the 1st Brigade. (300 C. A. C-1.)

IV. The following Executive Order is published for the information and guidance of all concerned:

STATE OF MARYLAND.

EXECUTIVE DEPARTMENT.

ANNAPOLIS, 16th June, 1916.

Executive Order.

Under authority contained in Article 65, Public General Laws of Maryland, as repealed and re-enacted at the January Session of the Legislature of Maryland, 1916, and additional company, coast artillery corps, is hereby authorized as a unit in the organized strength of the Land Forces of the Maryland National Guard.

to be organized and officered as prescribed in the Tables of Organization, Organized Militia, 1914, peace strength.

The Adjutant General of the State will issue the necessary orders accordingly.

EMERSON C. HARRINGTON,

Governor.

Pursuant to the authority contained in foregoing Executive Order and upon the application of sixty-five citizens of Baltimore, Maryland, duly signed and on file in this office, a company of Coast Artillery is ordered to be mustered into the service of the State of Maryland on Tuesday, 27th June, 1916, at 8.30 P. M., *provided not less than sixty-eight men are accepted and actually enlisted.*

The company will be known as *2nd Company*, Coast Artillery Corps, Maryland National Guard.

Major *Irving Adams*, 5th Infantry, is hereby detailed as muster-in-officer.

Captain *William J. Coleman*, Medical Corps, is hereby detailed as examining surgeon.

Applicants will be physically examined, accepted and enlisted at the Armory of the 5th Infantry, Baltimore, commencing at one o'clock P. M. on the date set for muster-in.

Muster-in-rolls and certificates of enlistment will be made in duplicate and forwarded direct to this office.

In the event of muster-in, the company, for administrative and instructional purposes, is assigned to the 1st Brigade.

Location of Armory will be announced in subsequent orders. (300 C. A. C.-2.)

BY ORDER OF THE GOVERNOR.

HENRY M. WARFIELD,

Official.

The Adjutant General.

STATE OF MARYLAND,

OFFICE OF THE ADJUTANT GENERAL,

ANNAPOLIS, 19th June, 1916.

General Orders No. 32.

I. Paragraph I, General Orders No. 22, and Paragraphs I and III, General Orders No. 28, A. G. O., c. s., are hereby revoked.

II. The Proclamation of the President of the United States, dated 18th June, 1916, calls for employment of Maryland National Guard in service of the United States.

The Commanding General, 1st Brigade, Maryland National Guard, will order into rendezvous at their respective home stations the 1st, 4th, 5th Regiments, Infantry, Troop A, Battery A, Light Artillery, Field Hospital No. 1 and Ambulance Company No. 1, preparatory to service in accordance with the Proclamation of the President of the United States.

Orders will be issued for the immediate recruiting to a strength of sixty-five enlisted men for infantry and cavalry units, wherever such units are below that strength, and to recruit Field Hospital No. 1 and Ambulance Company No. 1 to their required Federal minimum strength. (Tables of Organization for Organized Militia, peace strength, 1914.)

Troops will be required to habitually remain in rendezvous under military discipline and instructions. Infractions of military law and regulations will be promptly punished. No leaves of absence or furloughs will be granted while in rendezvous.

Subsistence while in rendezvous will be in accordance with allowance prescribed in Army Regulations under the supervision of the Quartermaster on duty at Brigade Headquarters.

The Brigade Commander will prescribe the course of drill instruction for both rendezvous and mobilization camps.

Mobilization camp for Maryland will be located at Laurel, Maryland.

The Commanding General, 1st Brigade, will proceed immediately to arrange camp for reception, shelter, subsistence and maintenance of troops as far as practicable in advance of their arrival.

Troops will assemble at rendezvous and proceed under telegraphic orders from this office, when this office is advised by the Brigade Commander that organizations have complied with regulations required previous to its being acceptable for muster into United States service. The supply officer on duty with the Brigade will draw required tentage and camp equipage from Quartermaster General in Baltimore, and arrange with that officer for necessary baggage, etc., transfers and transportation.

The Brigade Commander will proceed to and establish Headquarters at camp, assuming command, when in his judgment his presence there will facilitate mobilization. Movements of units to camp will be made as soon as enlistments are completed; in case of regiments not less than a battalion at one time.

Major John deP. Dowd, Quartermaster's Corps, is appointed representative of Quartermaster General and as State Supply Officer to receive and issue all supplies.

The Brigade Commander will direct his assigned staff to co-operate in the manner desired by State Supply Officer.

Daily strength reports, reports of all alterations and changes by name, rank, command, date and cause, will be mailed to this Office by the Brigade Commander. He will report arrival of troops, date, hour and strength.

Leaves of absence and furloughs will be restricted to reasons only allowed by Army Regulations.

The Brigade Commander will provide for protection of all United States, State and private property, and keep this Office fully informed. He will establish necessary courts-martial.

In connection with requirements in paragraph I of this order, the Acting Quartermaster General of the State will provide necessary transfer from rendezvous to railroad stations of baggage and camp supplies, all transportation of all organizations and impediments. He will utilize the services of all officers, enlisted men and employees in the Quartermaster Corps whenever desired. He will authorize and supervise all contracts, receipts, invoices, bills of lading and other administrative papers pertaining to supplies of every description for audit and final reference to this office for adjustment.

He will be governed by Army Regulations and issue the necessary instructions for guidance of all concerned.

The Adjutant General of the State will proceed to camp of mobilization at such time as the interests of the service may demand.

BY ORDER OF THE GOVERNOR,

HENRY M. WARFIELD,

Official.

The Adjutant General.

(General Orders No. 51 last of series of 1916.)

STATE OF MARYLAND,

OFFICE OF THE ADJUTANT GENERAL,

ANNAPOLIS, 8th January, 1917.

General Orders No. 1.

I. In accordance with the requirements of Section 93, Act of Congress, Approved June 3rd, 1916, an inspection of the several organizations of the Maryland National Guard, hereinafter designated, will be made by the officers of the United States Army detailed for that purpose by the Commanding General, Eastern Department, and upon dates given in the schedule herewith.

Particular attention is directed to the fact that this inspection is separate and distinct from inspections by officers of the Inspector General's Department, Maryland National Guard.

II. Organizations will be inspected in the Field Service Uniform, and without overcoats and blanket rolls.

III. The inspection will include all property available for field service, or for use in connection therewith, or required preparatory thereto, whether the property belongs to the United States or not.

The inspection is made for the purpose of determining the readiness and efficiency for field service and it is required that all articles of uniform clothing and equipment required for such service shall be on hand.

Field ranges must be cleaned and placed in condition for immediate use and with each must be the necessary complement of cooking utensils.

The inspection of property will be made during daylight. No property not actually inspected, except Government publications and such articles of officers' equipment as are not required to be worn on the person, will be included in the inspection reports. Memorandum receipts will not be considered nor accepted by the Inspector; he must see the property, inspect and count it.

During the inspection of property, the responsible officer or an authorized commissioned officer of the command being inspected, must be present with sufficient assistance to properly facilitate the work; the property must have been previously assorted, conveniently and neatly arranged for inspection.

IV. The personnel of organizations will be inspected at time indicated in the schedule of the Commanding General, 1st Brigade.

Field, staff and non-commissioned staff officers of the 1st Infantry will report for inspection at the nearest station and upon the date fixed for inspection of the personnel of such troops located at said station. Transportation only is authorized. The Commanding Officer, 1st Infantry, will issue the necessary orders in this instance.

V. The inspection of records of organizations and the obtaining of data required by the inspecting officer may take place as mutually agreed upon, between commanders and the inspector concerned. If not already in such condition, all records will be promptly written up. The 1st Sergeant's roll book and other records pertaining to drills, must be ready for submission to the inspector, showing dates on which drills were held, number of men present and character of drill or instruction given.

The files of retained copies of all enlistments and re-enlistments of the entire enlisted strength of the organizations as of the date of inspection will be conveniently arranged in case information is desired by the inspector. Retained copies at all times, but particularly so upon date of

inspection, must be exact duplicates of the originals on file in the Office of The Adjutant General.

VI. Organization commanders will require all officers and enlisted men under their respective control to turn in and have ready for inspection all articles of uniform clothing and equipment that may for the time being be in their personal custody and not stored in the armory or storeroom. All clothing and equipment will be properly cleaned.

VII. Organization commanders will require the attendance and use every available means to secure the same on the part of the enlisted men of their commands at the annual armory inspections by officers from the United States Army as required by Section 93, Act of Congress, approved June 3rd, 1916.

VIII. The following dates have been approved by the Commanding General, Eastern Department:

1st Maryland Infantry, 6th to 22nd February, 1917.

In accordance with instructions of Headquarters, Eastern Department (6th January, 1917), the following dates will be assigned to the below named units of the regiment:

Headquarters Company	10th February	
Company M.....	17th	"
Machine Gun Company.....	19th	"
Supply Company	20th	"
Company F	21st	"
Company K	22nd	"

4th Maryland Infantry, 18th January to 3rd February, 1917.

1st Separate Company, Infantry, 16th and 17th January, 1917.

Troop A, 19th and 20th January, 1917.

Battery A, 29th and 30th January, 1917.

Sanitary detachments will be inspected *upon dates within the period* assigned to regiments with which they are serving.

IX. The inspection and verification of *all* property will be made by representative from the Office of the Acting Quartermaster General's Department on the dates assigned for the Federal inspection thereof.

X. Officers concerned will prepare and have in readiness on the dates designated by inspectors such returns and reports as may be called for and in the manner indicated to them.

XI. The necessary orders to effect the provisions of this order will be issued by all organization commanders concerned, who will furnish to the inspecting officers, on date of issue, a copy of such orders.

BY ORDER OF THE GOVERNOR,

HENRY M. WARFIELD,

Official.

The Adjutant General.

STATE OF MARYLAND,
OFFICE OF THE ADJUTANT GENERAL,

ANNAPOLIS, 2nd March, 1917.

General Orders No. 13.

Upon his individual request, duly approved, and in accordance with the provisions of the Militia Law of Maryland, Colonel *John Hinkley*, 5th Regiment, Maryland Infantry, National Guard, is hereby withdrawn from active service and placed upon the Retired List, Commissioned Officers, National Guard of Maryland, as of this date.

In the withdrawal of Colonel Hinkley from active service, made necessary by the urgent demands of his profession in private life, the National Guard of Maryland sustains the loss of an efficient and valued officer, and his regiment a faithful and loyal friend whose constant effort was always to further the interest of his regiment, in whatever channels his endeavors could be directed. It is with keen regret that the Governor and Commander-in-Chief approves the request for retirement of Colonel Hinkley from active service.

Colonel Hinkley's service in the National Guard of Maryland and of the United States was performed as follows:

In the Service of the United States:

Captain, Co. E, 5th Md., U. S. V. I., 14th May to 22nd October, 1898;

Colonel, 5th Maryland Infantry, 1st July, 1916, to 24th February, 1917.

In the Service of the State of Maryland:

5th Infantry, Co. A, Private, Corporal and Sergeant, 1st December, 1884, to 1889:

Co. A, 2nd Lieutenant, 20th November, 1889;

Co. A, 1st Lieutenant, 18th June, 1892;

Co. E, Captain, 12th November, 1895;

Major, 30th June, 1903;

Colonel, 4th June, 1913.

General Orders No. 20.

The following Executive Order is published for the information and guidance of all concerned :

STATE OF MARYLAND.
Executive Department.

Annapolis, 21st March, 1917.

Executive Order:

Physical and Professional Examinations for Commissioned and Warrant Officers of the Maryland Naval Militia.

By virtue of authority conferred upon the Governor in Article 65, Code of Public General Laws of Maryland, it is hereby ordered that the physical and professional examination of all commissioned and warrant officers of the Maryland Naval Militia, which examination shall be had before their commission shall be made permanent, shall conform to the requirements prescribed by the Navy Department for such officers of the naval militia service as contemplated by the Act of Congress of 16th February, 1914.

The Adjutant General of the State will issue such orders as may be necessary in this instance.

(Signed) EMERSON HARRINGTON,
Governor.

In compliance with foregoing Executive Order the standard of physical examination for commissioned and warrant officers, Maryland Naval Militia, shall be as prescribed in general orders of the Navy Department and the professional examination of aforesaid officers shall be as required in General Orders No. 153, Navy Department, dated 10th July, 1915, with such amendments thereto as may from time to time be announced by the Navy Department.

Upon certification by the Division Naval Militia Affairs, Navy Department, of the completion and qualification of officers of the Maryland Naval Militia in the course of examination prescribed for their respective grades and duties, the probationary commissions of officers so certified will be made permanent.

BY ORDER OF THE GOVERNOR.

HENRY M. WARFIELD,

Official.

The Adjutant General.

STATE OF MARYLAND,

OFFICE OF THE ADJUTANT GENERAL,

ANNAPOLIS, 22nd June, 1917.

General Orders No. 50.

I. Information has been received by this office that the National Guard of this State will be drafted into service of the United States in the month of July, the Coast Artillery Corps about July 15th and other troops about July 25th, 1917.

II. It is necessary that all officers and men should prepare themselves and their organizations for this duty.

III. Such armory instructions, out-door drills and schools for officers and enlisted men should be held to the utmost extent.

IV. Each officer of the National Guard will familiarize himself with Special Regulation 55 (Mobilization regulations) so he will be familiar with what is expected of him. Arms, equipment and clothing should be placed in the best possible condition.

V. The following individual records of officers and enlisted men required by the War Department will be brought up to date: (a) officers record card, Form No. 218-1, A. G. O. Until the new form for the National Guard becomes available, Form No. 218, A. G. O. will be used.

(b) Physical examination of officer, Form No. 378-1, A. G. O.

(c) Designation of beneficiary, Form No. 380-1, A. G. O.

RECORDS OF ENLISTED MEN.

(a) Enlistment paper, Form No. 22-1 A. G. O.

(b) Report of physical examination, Form No. 135-1, A. G. O. Until the new form for the National Guard becomes available Form No. 10, O. M., or No. 135, will be used, in which case the space on pages 4 and 5 for the physical examination at place of acceptance will be left blank.

(c) Identification record card, Form No. 11, O. M., or Form No. 260, A. G. O. Photographs and photographic negatives are not required for members of the National Guard.

(d) Designation of beneficiary, Form No. 380-1, A. G. O.

VI. All United States property and property purchased from the United States by this State will be taken with the organization or shipped to the Mobilization Camps or to their new station. Upon assembly at company rendezvous all articles not in possession of enlisted men needed en-route will be prepared for shipment. Organization and privately owned property such as automobiles, motor-cycles, etc., if taken, should be transported and maintained at the expense of the organization or individual and not at the expense of the United States.

VII. No personal property of officers or enlisted men will be left in the lockers or in the Armory after departure therefrom for the reason that some necessity may arise requiring the use of armories during the absence of the National Guard.

VIII. Immediately upon the receipt of the call for service of the United States, officers accountable for property and supplies to the Property and Disbursing Officer, will at once close their accountability for property to him by striking the balance for each item as shown by the return on the date of the call. They will at once make separate lists in quadruplicate, which list can be on the ordinary invoice and receipt form or typewritten alphabetically on plain, standard size paper, of property or supplies pertaining to each department giving all articles

and the number of each as shown by the balances hereinbefore required. The following certificate of the supply or medical officer will be placed on the lists:

"I hereby certify that the accountability for all the property and stores enumerated on this list was this.....day of.....
.....191.., transferred from the Property Disbursing Officer for the United States in the State of Maryland to the proper Bureau of the War Department."

IX. All State property such as armory equipment, desks, tables, chairs, or other articles not taken into the Federal service will be invoiced and locked securely in Armory. Each organization commander should arrange with some responsible person in whom he has confidence to take possession of the keys thereof and represent him when a representative of the office of Assistant to the Acting Quartermaster General can be present to check said property and give the responsible officer a receipt therefor. Separate invoices will be made of each class of property by actual count.

X. It is desired to have the records of the National Guard of Maryland in this great emergency as complete as possible, and all officers are requested, after draft into the service of the United States, to keep this office fully advised of all changes by promotion, all incidents of particular interest and all meritorious acts on the part of the soldiers, so that the records may truly and fully present the conduct of the soldiers from Maryland. The National Guard will be the only body of troops that will carry the State designation throughout this great war, which fact should impress every officer and man with the pride with which the citizens of their State will follow them.

XI. This opportunity is taken to express the utmost confidence in the National Guard of Maryland and to express the undoubted belief that it will represent the State of Maryland in a manner that will reflect credit upon the National Guard and State.

BY ORDER OF THE GOVERNOR.

HENRY M. WARFIELD,

Official.

The Adjutant General.

General Orders No. 61.

I. The following Executive Order is published for the information and guidance of all concerned:

STATE OF MARYLAND,
EXECUTIVE DEPARTMENT,

ANNAPOLIS, 23rd July, 1917.

Executive Order.

Pursuant to The Secretary of War, dated 23rd July, 1917, and in conformity with the authority contained in Article 65, Code of Public General Laws of Maryland, two additional batteries of field artillery are hereby ordered as additional units in the authorized and organized strength of the Land Forces of the National Guard, to be organized and officered in the manner prescribed by the War Department in orders and regulations issued for the government of the National Guard.

The Adjutant General of the State will issue the necessary orders accordingly.

(Signed) EMERSON C. HARRINGTON,
Governor.

II. Under the authority of Executive Order, dated 23rd July, 1917, and Federal recognition accorded by the War Department, dated 23rd July, 1917, and the approved application of one hundred and forty-one citizens of Maryland, who meet the requirements as to age, physical condition, etc., for enlistment in the National Guard, for the time being one additional battery of field artillery, to be designated and known as *Battery "B," Maryland Field Artillery, National Guard*, is hereby authorized and ordered to be organized and mustered into the National Guard of Maryland not later than 24th July, 1917, at Baltimore, Maryland.

Muster-in-rolls and copies of all certificates of enlistment will be forwarded direct to this Office not later than 25th July, 1917.

A typewritten list of the strength of the battery will be prepared in duplicate, as of date of muster in, to show:

Name (Christian and surname written out in full).

Rank.

Date upon which enlisted.

Date upon which each officer and man have sworn and subscribed to the oath for officers and the oath and contract for enlisted men as required by Sections 70 and 73, respectively, of the Act of Congress approved 3rd June, 1916.

III. To enable them to accept commissions in the National Guard of Maryland, the following enlisted men will be honorably discharged as of the 22nd of July, 1917:

Sergeants *Frank Frisbie* and *Charles B. Reeves* and *Corporal Beverly Ober*, all of *Battery "A," Maryland Field Artillery, National Guard*.

IV. The following commissions have been issued subject to examinations required by Act of Congress approved 3rd June, 1916:

Circular No. 1.

1. In conformity to the requirements of General Orders No. 2, paragraph 1, A. G. O., c. s., the following regulations are issued for the information and guidance of officers accountable for public property.

2. *Change of forms for rendition of property returns.* In lieu of the forms heretofore supplied for property returns, there will be supplied to each officer accountable for public property a Kalamazoo Binder and blank sheets of approved and authorized patterns on file in this Office. The blank sheets shall be of the following form:

PROPERTY ACCOUNT.

Voucher.		Debit.	Credit.	Balance on hand.	
Date.	No.	Received, etc.	Issued, Transferred, etc.	Serviceable.	Unserviceable.
1.	2.	3.	4.	5.	6.

Article_____

Description_____

(Note:.) Reverse side of above sheet ruled and has same descriptive columns as appears on front.

3. *Method of Accountability.* A separate account with *each article* and *kind of article* of property on hand shall be arranged *alphabetically* under the following headings:

Text books,
Engineer Property,
Signal Property,
Medical Property,
Ordnance Property,
Quartermaster Property—*all classes.*

The arrangement of sheets in the binder will be in the order shown above.

There is no change in the method of invoicing and receipting for property, except that *only one invoice and one receipt* will be prepared for each issue of property.

The term "voucher" as used in this circular refers to either "invoice" or "receipt" as the case may be.

All vouchers to a property account will be dated and posted currently and immediately upon completion of the transaction to which the voucher relates.

On receipt and verification of property, the receipt accompanying the invoice will be signed and returned *without delay* to the invoicing officer. The articles received will be entered in the Property Account *exactly* as they appear on the vouchers (invoice and receipt). Upon completion of posting of items in Property Account, the voucher will be stamped on the brief "Posted" with the date on which the same is made. Receiving officers will file with their Property Accounts all invoices received for reference purposes. Invoicing officers will file with their Property Accounts all receipts received for similar purposes.

To post a voucher to a Property Account (see form above), the following will govern:

Column 1, enter date of voucher;

" 2, enter serial number of voucher;

" 3, enter quantity received or otherwise procured (debit voucher only);

" 4, enter quantity transferred or otherwise disposed of (credit voucher only);

" 5, enter current balance—quantity serviceable;

" 6, for use of Acting Quartermaster General only.

Whenever a receipt or transfer of property occurs, *other than with the Acting Quartermaster General of the State*, the officer transferring the same will immediately notify this office of such transaction, including the *name and quantity* of article, or articles, so transferred. *This regulation is invariable and for no reason will it be neglected.*

Property Accounts kept and posted *currently* in accordance with foregoing regulations will, at all times, show the exact status of each article.

4. *Semi-annual Lists.* In lieu of the semi-annual returns heretofore required, accountable officers will render to this Office, direct, on the 30th June and 31st December, annually, a typewritten list, *showing the balance on hand of each article as shown by the Property Account.* This list will be signed by the officer submitting the same.

On receipt at this office of the list called for in preceding section, it will be compared with the officer's account as shown by the files of this office; if found correct, a certificate to that effect will be supplied the officer concerned; in event of discrepancies the officer will be notified of the same.

The serial number of vouchers will end with the rendition of each semi-annual list.

5. *Release from Property Accountability.* Whenever it becomes necessary to order the transfer of an officer's property accountability under the requirements of General Orders No. 75, A. G. O., series 1913, or by reason of transfer to the Supernumerary List, the officer concerned shall make in duplicate a typewritten list of the property for which he is accountable. One copy of the list with *all sheets* pertaining to his property Account, will be sent to this office for audit.

The officer designated to receive the property will be supplied with

a new set of sheets for purpose of opening his Property Account. The binder will be turned over by the officer transferring the property to the officer receiving the same, at the time he forwards the list required in preceding section. The foregoing Property Account will be prepared from the invoices received from the officer transferring the property.

6. Accountable officers whenever in doubt as to the proper procedure in opening and closing Property Accounts and any matter pertaining to the same, should make immediate application to this Office for any information desired. Errors and delays will thus be avoided.

BY ORDER OF THE GOVERNOR.

CHARLES F. MACKLIN,

The Adjutant General,

Acting Quartermaster General.

Official.

STATE OF MARYLAND,

OFFICE OF THE ADJUTANT GENERAL,

ANNAPOLIS, 27th October, 1916.

Circular No. 2.

In conformity with instructions received from the Bureau of Militia Affairs, War Department, dated 19th October, 1916 (325.11-General), the following regulations governing armory instructions of the *National Guard of Maryland* are published for the information and guidance of all concerned. There will be no deviation therefrom or suspension of same without authority first obtained from this Office.

1. Each company, troop, battery and detachment of the National Guard shall assemble for armory drill and instruction including indoor target practice, not less than forty-eight times each calendar year and not less than twenty-four times each semi-annual period beginning January 1st and July 1st of each year. Each and every assembly shall be of at least one and one-half hours duration.

2. As a condition to the payment of officers and enlisted men for armory service, in addition to their individual attendance, their average attendance at drills must be as follows:

(a) For officers and men of a company, troop, battery or detachment, the attendance at armory drills for each semi-annual period must exceed 50 per cent. of the authorized minimum commissioned peace strength of the company, troop, battery or detachment for officers, and be not less than 60 per cent. of the authorized minimum enlisted peace strength of the company, troop, battery or detachment for enlisted men, provided, that credit for attendance at drills shall not be given unless the period of actual military instruction participated in by each officer and enlisted man at each assembly, exclusive of rests and interruptions, is at least one and one-half hours in duration, and provided that the character of the instruction is such as may be prescribed by the Secretary of War. Where the enrolled enlisted strength of a company, troop, battery or detachment exceeds the minimum strength prescribed by the War Department, the percentages set forth above shall be required on the average enrolled strength of the company, troop, battery or detachment for the semi-annual period. Credit for drill attendance of company officers and enlisted men will not be allowed on account of time occupied with correspondence schools or for attendance at schools for officers and non-commissioned officers.

(b) Colonels, lieutenant colonels and majors will be required to attend the number of drills and of the same duration prescribed for companies. Their duties at these drills will consist of a constant and close supervision of the manner in which the prescribed drills and exercises are executed, and of a critique after each drill attended. Their remarks will include an enumeration of the deficiencies observed and a statement of the means to be taken to correct them. Their attendance will be so varied that they will witness the drills of every company and detachment in their commands in different forms of instruction prescribed for armory training. Colonels and lieutenant colonels will also witness a variety of the drills of their battalions in the prescribed armory training. When more than one field officer is present at a drill conducted by the units of their commands, a critique will be conducted by each one, commencing with the junior in rank.

(c) Staff officers and non-commissioned staff officers of a regiment, battalion or similar command will be required to attend the number of drills, and of the same duration prescribed for companies. Their duties

will consist of participating in tactical evolutions with their commands when the latter are drilled as units and of appropriate administrative and tactical studies and exercises prescribed by the inspector-instructor when their commands are not so drilled.

(d) Staff officers (except those commanding companies, troops, batteries and sanitary units), of the Adjutant General's Department, Inspector General's Department, Judge Advocate General's Department, Quartermaster Corps, Medical Corps, Corps of Engineers, Ordnance Department and Signal Corps, will be required to attend the number of assemblies for drill, and of the same duration prescribed for companies. Their duties, in uniform in armory office, will consist of appropriate practical work in administration, supply, mobilization, equipment and records, and in such administrative and tactical studies and exercises as may be prescribed by the inspector-instructor in carrying out the program prescribed by the War Department.

(e) Aids-de-camp will be required to attend drills with the organizations from which they are detailed; or to which they are attached, as required for company officers.

(f) Chaplains will be required to be in armory or in camp, available for consultation, for an equal number of periods of the same duration prescribed for companies. Credit will be given for sermons delivered to a military command or visits to sick soldiers in hospitals, or at their homes.

(g) General officers will be required to attend the number of drills, and of the same duration prescribed for companies. Their duties at these drills will consist of a constant and close supervision of the manner in which the prescribed drills are executed, and of a critique after each drill attended. Their remarks will include an enumeration of deficiencies observed and instructions in methods to correct them. They will also inspect the equipment and observe the progress of the training and the general efficiency of their units. Their visits will be so varied as to observe, as far as practicable, each unit in the execution of a prescribed drill or exercise.

(h) In addition to such requirements as may be prescribed in the special regulations for the instruction of officers of the Medical Corps, the chief surgeon will be required to make official visits to sanitary detachments and units for the purpose of observing the progress of their training, condition of their equipment and general efficiency. The total number of such visits during a semi-annual period must be not less than three, and if practicable, the itineraries will be arranged so that all sanitary troops will be visited at least once during a semi-annual period.

(i) Field and staff officers who do not reside at the station of their command will be required to take such correspondence courses, in lieu of attending drills, as may be prescribed by inspector-instructors.

(j) The detailed character of drills to be attended will be prescribed by the War Department for each arm.

(k) The expense incident to the travel of general officers, field officers, staff officers, and non-commissioned staff officers in attendance at drills prescribed for them, is not a proper charge against Federal funds.

(3) The commanding officer of each company, troop, battery, and detachment shall keep a monthly record of armory attendance, in triplicate, on a form furnished by the Militia Bureau (Forms Nos. 100 and 100-a, M. B.), of each officer and enlisted man of his organization at every drill or assembly, for instruction, showing the name of the person, the date of the drill, the period during which he was actually present and under instruction in uniform, and the character of the drill and in-

struction for the entire period. This roster of attendance certified to by the senior officer on duty with the organization will be again certified by the battalion commander or officer of corresponding command, providing he is on duty at the station of the company, and delivered or mailed to the regimental commander immediately after the last drill or instruction of each month. Regimental or separate battalion, company, troop, battery and detachment commanders will forward the original reports of attendance directly to the Chief of the Militia Bureau, and the duplicate copies to the Adjutant General of the State. The triplicate copies will be retained in the organization records.

Battalion commanders and officers of corresponding command will ascertain that it represents an exact statement of the drill and instruction undergone during the month period.

4. A monthly record of attendance will be kept on the form and as prescribed for companies as follows:

(a) For general officers, aids-de-camp and staff officers of the brigade by brigade commander.

(b) For the field and staff officers, chaplains and non-commissioned staff officers of a regiment, separate battalion or similar command by the regimental, separate battalion or similar commander.

(c) For the officers of staff corps or departments not provided for above by the senior line officer at the station or town of said officers.

(d) It will be the duty of all officers to see that their attendance at armory drill and instruction is duly reported as required by these regulations.

(e) One copy of each of the rosters of attendance required above will be forwarded by the officer named directly to the Chief of the Militia Bureau at the end of each month, and a duplicate copy to the Adjutant General of the State.

5. Pending the publication of programs of instruction for each arm and corps by the War Department, the scheme of practical and theoretical instruction as set forth in Circular No. 3, D. M. A., February 29, 1914, is prescribed for the National Guard for drill and instruction including indoor target practice. It should be the duty of inspector-instructors to prepare schedules covering the programs prescribed for their arms and corps and to supervise the execution of the details as contemplated by the programs. Special reports will be made to the Chief of the Militia Bureau of all neglects on the part of organizations to conform to the schedules.

6. Armory drills will be supplemented by armory schools, correspondence courses and questions and answers based on the circular mentioned above. Inspector-instructors will conduct these courses and the examinations thereon in accordance with the directions in each case. It shall be the duty of officers and enlisted men of the National Guard to pursue the studies prescribed in such armory schools, correspondence courses and questions and to take the examinations thereon. Examinations in connection with officers' schools will be held by inspector-instructors on their instruction visits, who will certify on the examination papers that questions were answered in their presence without recourse to text-books.

BY ORDER OF THE GOVERNOR,
HENRY M. WARFIELD,

Official.

The Adjutant General.

STATE OF MARYLAND,

OFFICE OF THE ADJUTANT GENERAL,

ANNAPOLIS, 6th November, 1916.

Circular No. 3.

In conformity with instructions received from the Militia Bureau, War Department, dated 23rd October, 1916 (201.6-B), the following regulations will govern the courses of instructions of *Field Artillery*, *National Guard of Maryland*, and are requisite for qualification to receive pay under the provisions of the Act of Congress approved 3rd June, 1916. There will be no deviation therefrom or suspension of same without authority first obtained from this Office.

1. Inspector-instructors will visit the organizations of their districts as early as practicable, and establish schedules of drills, schools for officers, schools for non-commissioned officers and selected privates, schools for the instruction of special details and schools for gunners. The schools for officers, non-commissioned officers and special details, will be supplemented by questions, problems and exercises formulated by the inspector-instructors as often as may be desirable.

2. The instruction throughout the year should be conducted with a view to making all National Guard batteries efficient firing units at the camps for field training in 1917. At the first visit, inspector-instructors should insist upon having all units organize complete special details. The training of these details and the drill of the gun squads and the firing battery should be perfected in National Guard organizations to a high degree during the period of armory training. Where organizations are indifferent, or fail to make reasonable progress, special reports should be rendered to the Chief of the Militia Bureau and to the Adjutant General of the State concerned.

The drills will consist of the exercises in the Provisional Drill and Service Regulations for Field Artillery, appropriate to each unit. The especial objects to be obtained are the development of speed with accuracy in the firing battery, the training of drivers in equitation, horsemanship, driving, and the maneuvering of the different units, the proficiency of officers and non-commissioned officers in their duties pertaining to the occupation of position, the preparation of firing data, and the conduct of fire, and skill in the members of the special details. Each visit of an inspector-instructor will last as long as the available time can be profitably employed. Arrangements will be made in advance to have as many drills as possible in his presence. He will frequently check instruments and the laying of guns to ascertain the degree of accuracy preserved, and he will apply tests to all classes of work upon which comparisons may be made between the different units in his district. The result of these tests will be published as frequently as possible among all the organizations of the district, with a view to stimulating a friendly rivalry among all grades and organizations.

4. The schools for officers will be conducted in the Basic Course prescribed by Circular 3, Division of Militia Affairs, 1914, substituting Volumes 1 and 3, Provisional Drill and Service Regulations, for Field Artillery, 1916, for the drill regulations prescribed in the circular, and adding the subjects prescribed by paragraph 7, G. O. No. 61, War Department, 1915. Especial stress will be laid upon the preparation of firing data, the conduct of fire, the employment of special details, and the preparation of papers pertaining to battery administration. Officers who received certificates in the Basic Course in 1916 will pursue the Course for Year A of the circular, and officers who received certificates

in 1916 in both the Basic Course and the Course for Year A will pursue the Course for Year B of the circular. Volumes 1 and 3, Provisional Drill and Service Regulations for Field Artillery, 1916, will be substituted for the drill regulations prescribed in the Courses for Year A and Year B in the circular. Officers who qualified in 1916 in any subject of the Basic Course, but did not qualify in the entire course, will be credited for the subjects in which they qualified, except drill regulations. They will be required to complete the Basic Course, and if practicable, to pursue the Course for Year A, adding the subjects enumerated in paragraph 8, G. O. No. 61, War Department, 1915. In all cases, the additional subject named at the bottom of page 37 of the circular will be included. Non-commissioned officers will be encouraged to take the same course and examination as officers, in addition to the subjects prescribed for non-commissioned officers' schools and gunners' instruction.

5. The schools for non-commissioned officers and selected privates will embrace Volumes 1 and 3, Provisional Drill and Service Regulations for Field Artillery, material, draft, and stable management.

Stable sergeants and horseshoers will be instructed in "The Army Horse in Accident and Disease," and "The Army Horseshoer."

Non-commissioned staff officers, color sergeants, first sergeants, supply sergeants, mess sergeants, mechanics, saddlers, cooks, clerks, and wagoners will be required to pursue a course of instruction embracing the duties of their grades.

Inspector-instructors will prescribe the text-books and forms to be used, and will prepare test questions and exercises for the conduct of each course.

6. Schools for special details will include the subjects embraced in paragraph 8, G. O. No. 61 War Department, 1915, and equitation.

7. Schools for gunners will include the subjects embraced in paragraph 7, G. O. No. 61, War Department, 1915.

8. Inspector-instructors will assign field officers and battery and staff officers to duty as instructors of the different schools as far as practicable. Recitations will be conducted by inspector-instructors in all schools as often as the number of authorized visits will permit.

9. Officers and non-commissioned officers who take the course prescribed for the officers' school will be examined in writing in each subject as soon as it is completed. The examination will be sufficiently comprehensive to ascertain the actual knowledge of each subject, and will include the determination of firing data and the conduct of fire, with blackboard problems. Questions for the examination will be furnished by the War Department. Examination papers will be marked by the inspector-instructor, and forwarded to the War Department with his report of the examination. The examination in the determination of firing data and the conduct of fire will be practical. The examination in the subjects prescribed by paragraph 7, G. O. No. 61, War Department, 1915, will be conducted as prescribed for gunners, with the same trials, time limits, and credits. In order to be reported proficient, each officer, or non-commissioned officer examined must make an average of not less than 85 per cent., with an average in each subject of not less than 75 per cent., except that percentages required for second-class gunners will be accepted for proficiency in the subjects enumerated in paragraph 7, G. O. No. 61, War Department, 1915. The examination of the different classes of gunners will be conducted in accordance with the provisions of paragraphs 7 and 8, G. O. No. 61, War Department, 1915.

10. Examination of candidates for gunners may be held at any time.

and as often as desired, provided that the expenses of inspector-instructors for visits in addition to those authorized by the War Department are borne by the States. Officers and individual candidates for gunners may be examined in any of the subjects comprising the gunners' examination at any of the visits of the inspector-instructor, and these partial examinations may be completed at succeeding visits. All examinations of officers and of candidates for gunners must be completed prior to May 1, 1917.

11. Officers who received War Department certificates in the Basic Course in 1916 are available for detail as members of examining boards within their own States, and for organizations other than those to which they belong. Inspector-instructors will submit recommendations to the Adjutants General of States, who are authorized to make details of National Guard officers to act with inspector-instructors as members of examining boards. In all cases, the inspector-instructor will be a member of the Board, and no examination will be conducted except when he is present. Any expense for the travel of National Guard officers as members of boards for the examination of gunners shall be borne by the States.

12. Officers who qualify in the subjects enumerated in paragraph 7, G. O. No. 61, War Department, 1915, will not be required to be examined therein in subsequent years, unless such examination is made necessary by changes in material or methods. Non-commissioned officers who qualify for certificates in the officers' school will be subject to the yearly examination for qualification as gunners as provided by paragraph 1344, Army Regulations.

13. At least one map for examination in each course should be provided for every officer and non-commissioned officer who takes the examination prescribed for officers. Requisitions for the Gettysburg maps for the course of instruction and for the examinations should reach the War Department not later than December 31, 1916.

14. At the conclusion of the examination a report will be made to the Chief of the Militia Bureau for each battery, headquarters and supply company, and for the field and staff officers of each regiment or battalion, giving the percentage made by each officer and non-commissioned officer in each subject and his general average. Where an officer has failed to pass the examination, the report will show any special reasons that may be known for such failure, and a recommendation will be made as to any action that may seem proper. The report of qualification of gunners will be made as prescribed in G. O. 61, War Department, 1915. All reports of examination of officers and gunners will be made to the Chief of the Militia Bureau prior to May 10, 1917. Partial reports will not be required. The reports of qualification for certificates for officers and non-commissioned officers will be made in tabular form for each organization, following the sample furnished by the Chief of the Militia Bureau. The sequence should be similar to that used in Circular 17, Militia Bureau, 1916. The report of qualification of gunners will be made in tabular form for each organization, following the form and arrangement used in Circular No. 8, Militia Bureau, 1916. Sample forms for that purpose will be furnished. Only one copy of each report is required by this office, and all reports should be so prepared that they may be in condition for printing. Especial care should be exercised to have all calculations accurate, all names arranged in proper order for each organization according to the total value of the marks, all names correctly spelled and entered with the first name, middle initial, and rank, and the lists of the different classes of gunners should appear under

separate headings. The date of qualification of gunners must be given in all cases. Upon the approval of the ratings by the War Department, the names of officers and non-commissioned officers who have passed the examination successfully, and the average percentages made by them will be published, and they will be given certificates by the War Department covering each year's course completed satisfactorily by them. The names of all qualified gunners will be published by the War Department, and they will be entitled to the extra pay of their qualifications at all camps for field training.

15. In order to receive the full allowance of ammunition for target practice at the camps in 1917, at least three officers in a battery must have received certificates for the course of instruction prescribed for officers, and at least twenty (20) enlisted men must be qualified gunners in each battery, including not less than half of the special detail who have qualified in the subjects prescribed by paragraph 8, G. O. No. 61, War Department, 1915. Where batteries do not fulfill these requirements, only such amounts of ammunition will be authorized as are considered necessary for instruction practice in the conduct of fire.

16. Batteries, headquarters and supply companies, and the field and staff of regiments and battalions will be rated in efficiency according to the following scale at the end of the encampment period in 1917.

Certificates of Proficiency:

For each Certificate of Proficiency given to officers and non-commissioned officers..... 200 units

Qualification of Gunners in the subjects prescribed by Par. 8, G. O. 61, W. D., 1915: -

Circular No. 4.

The following communication from the Militia Bureau War Department is published for the information and guidance of all concerned:

WAR DEPARTMENT,
MILITIA BUREAU,
Washington.

MB. 326.1
October 30, 1916.

From: The Acting Chief, Militia Bureau.

To: The Adjutants General of the several States (except South Carolina), the District of Columbia Militia, the Territory of Hawaii, and the Governor of South Carolina.

Subject: The Regular Army Reserve.

It is requested that the following be brought to the attention of all National Guard officers *not* in Federal service

Regulations for the Regular Army Reserve require that each member of that Reserve, not in active service, present himself to any one of the certain Government officers for identification about January 1st and July 1st of each year. If a member of the Reserve presents himself to an officer of the National Guard and requests him to sign the statement of identification as to his physical condition, the National Guard officer will, if the applicant be the person designated in the certificate, identify him, and if he seems to be in good physical condition, will so state. This certificate does not require actual physical examination of the applicant. If at any time in the future the Regular Army Reserve should be mobilized, officers and enlisted men of the National Guard will notify any members of the Regular Army Reserve whom they may meet that mobilization has been directed.

Circular No. 5.

The following instructions from the War Department are published for the information and guidance of all concerned. Careful observance of the same will avoid unnecessary errors and consequent delays.

1. DISCHARGE OF ENLISTED MEN.

"(a) Enlisted men called into the service of the United States cannot be discharged, except by expiration of enlistment, without the approval of the Department Commander, or of the War Department.

"(b) Enlisted men who are not in the service of the United States, but who have taken the oath prescribed by the Act of Congress approved 3rd June, 1916, should not be discharged at the expiration of the first 3 years of enlistment period of 6 years, but should be furloughed to the National Guard Reserve *unless* they make written application to continue in active service.

"(c) In the following exceptional cases discharge prior to the expiration of period of enlistment may be made:

"1. By order of the President or the Secretary of War.

"2. By sentence of a general court-martial.

"3. By direction of the Governor of the State on account of disability; on account of sentence or imprisonment by a civil court, whether suspended or not; account of a bona fide permanent change of residence to another State; and for the purpose of enlisting in the regular army, navy or marine corps.

"4. In compliance with an order of one of the United States Courts, or a Justice or Judge thereof, on a writ of habeas corpus.

"Enlisted men who have not taken the Federal oath may be discharged under such laws as may be in force in the particular State or Territory, except that if they were subject to the call of June 18, 1916, the authority of the War Department shall be obtained.

"Discharges of enlisted men, whether under the provisions of subparagraphs (a) or (c) should be signed by a field officer of the regiment or other organization to which the soldier belongs, or by the commanding officer when no such field officer is present.

"The discharge certificate of enlisted men separated from the National Guard Reserve should be signed by the Adjutant General of the State.

"A soldier who changes his residence within the State should not be discharged, but should be transferred by the Governor to another organization of the National Guard of the State; provided that when there is no organization of the National Guard located at his new residence the soldier shall be furloughed to the National Guard Reserve by order of the Governor.

"Certificates of disability will be prepared by the soldier's company commander and sent by him to the examining surgeon of the organization to which the soldier belongs. They will be completed by the surgeon and transmitted to the regimental commander, who will forward them to the Adjutant General of the State. If approved by the Governor of the State, he will order the discharge.

"Should an enlisted man make a permanent change of residence to

another State and desire to complete his term of enlistment in the State of his new residence, his request should be referred to the Chief of the Militia Bureau for instructions pending the promulgation of regulations covering the subject. (M. B. 200.) (*In connection with this section see following paragraph.*)"

2. TRANSFER OF ENLISTED MEN FROM ONE STATE TO ANOTHER STATE.

"(a) An enlisted man who makes a permanent change of residence to another State, and desires to complete his enlistment in the State of his new residence, may be transferred upon the approval of the military authorities of each State concerned, to an organization of the National Guard in the State to which he has changed his residence.

"(b) To effect such a transfer, he will be required to take the prescribed oath of enlistment in the State to which he has changed his residence, and the following supplemental contract will be made in addition thereto:

"This oath is subscribed to with the undersanding that credit will be given in the execution of this contract, for the period which I have already served under my current enlistment in the Organized Militia or the National Guard of.....

.....
Signature.

Date of current enlistment :

The Adjutant General.

STATE OF MARYLAND,
OFFICE OF THE ADJUTANT GENERAL,

ANNAPOLIS, 20th November, 1916.

Circular No. 6.

The following instructions from the Militia Bureau, War Department, relating to *pay of enlisted men under Section 110, Act of June 3, 1916*, are published for the information and guidance of all concerned:

WAR DEPARTMENT,

MILITIA BUREAU.

Washington.

MB. 240.7

November 8, 1916.

From: The Chief, Militia Bureau.

To: The Adjutants General of all States (except South Carolina), the Territory of Hawaii, the District of Columbia Militia, the Governor of South Carolina, all Inspector-Instructors, Department Commanders, and the Quartermaster General of the Army.

Subject: Pay of enlisted men under Section 110, Act of June 3, 1916.

1. Inquiry having been made with regard to pay of enlisted men under Section 110 of the Act of June 3, 1916, it is the opinion of the War Department that the pay provided for by this section is for *periods of service* and that the requirement of the Act with reference to attendance at drills is not the actual basis of such payment, but only marks their qualification for the period payment.

2. Section 110 of the Act of June 3, 1916, provides for the payment of each enlisted man of the National Guard at a rate equal to 25 per cent of the initial pay of enlisted men in corresponding grades of the Regular Army, "except during periods of service for which he may become lawfully entitled to the same pay as an enlisted man of corresponding grade in the Regular Army" subject to specified conditions respecting attendance at drills. These conditions may be set forth briefly as follows:

(a) In order to receive the total authorized amount of pay for any one year an enlisted man must have attended a minimum number of 48 *regular* drills during the year. For attendance at a lesser number during the year, but not less than 24, he is entitled to receive a proportionate amount.

(b) Compensation is to be computed for semi-annual periods, beginning January 1 and July 1 of each year. "in proportion to the number of drills attended," within the limitations mentioned in (a). If a soldier attends fewer than 24 regular drills during the first semi-annual period, no pay becomes due for that period, but the number of drills which he attended during such first period shall be reckoned with the drills attended during the second semi-annual period in computing compensation, if any, due him for the whole year.

(c) When any man enters into an enlistment other than an immediate re-enlistment he shall be entitled to proportional compensation for that year, if during the remainder of the year he shall attend a number of drills whose ratio to 24 is not less than the ratio of the part of the

year so served to the whole year, and when any man's enlistment shall expire the compensation, if any, to which he may be entitled shall be determined in like manner.

3. In addition to the foregoing, under Section 70, Act of June 3, 1916, each enlisted man must qualify as a member of the National Guard by signing the enlistment contract and taking and subscribing to the oath of enlistment as prescribed by that section, and further, under Section 92 of the Act of June 3, 1916, the minimum attendance and duration of drill of an organization to which the enlisted man belongs, in order that credit for a drill may be given, must be that prescribed by the President as set forth in circular letter of this Bureau dated October 19, 1916, (325.11), and which will appear shortly in Circular No. 20, Militia Bureau, 1916.

4. The periods of service constitute the actual and primary basis of computing payments under Section 110. The compensation is payable, except "during periods of service" for which the soldier becomes entitled to full pay. For fractional periods, at the beginning or termination of an enlistment period, the service period is the basis of computation: that is, the soldier is entitled to proportional compensation for that year provided he attends a number of drills whose ratio to 24 is not less than the ratio of the part of the year so served to the whole year.

5. Qualification under Section 70, Act of June 3, 1916, will be regarded as an original enlistment respecting pay as provided in 3rd proviso of Section 110 of the Act.

6. The pay provided in Section 110, Act of June 3, 1916, for semi-annual periods beginning July 1, 1916, will be computed on the fractional computation stated above as follows:

(a) For enlisted men of the National Guard in, or who have been in, the service of the United States, from the day after they have been mustered out of the service of the United States.

(b) For enlisted men of the National Guard who were not called into the service from the date of recognition as National Guard of the organization to which they belong.

(c) The classes under (a) and (b) in addition must be qualified and must have complied with all the conditions enumerated in this letter.

7. Pay for officers of the National Guard under Section 109 of the Act requires qualification under Section 73 of the Act, and compliance with the requirements set forth in the circular letter referred to above. The fractional computations for the current year will be made on the same basis as for enlisted men.

Militia, all Inspector-Instructors, Department Commanders,

and the Quartermaster General. (Copy for the Governor of South Carolina.)

Subject: Pay of enlisted men under Section 110, Act of June 3, 1916.

1. Inquiry having been made with regard to computing the number of drills or periods of instruction which will entitle officers and enlisted men to pay under the provisions of Section 110, Act of June 3, 1916, it is the opinion of the War Department that the assembly at the armory for regular drill and instruction, including indoor target practice during a single day shall constitute *one drill only* even though the period of actual military duty and instruction participated in by each officer and enlisted man should be more than twice the minimum requirement of at least one and one-half hour's duration.

2. An assembly for armory drill and instruction may be held out of doors. However, the character of the instruction must be that prescribed by the War Department for armory instruction. (Circular letter October 19, 1916, M. B. 325.11-General.) (*See Circular No. 2, A. G. O., series 1916.*)

3. Practice marches, tactical and combat exercise, other field exercises and range practice (outdoor target practice) are properly held "in encampments, maneuvers or other exercises including outdoor target practice" as provided in Section 92, Act of June 3, 1916, and are in addition to the minimum requirement of forty-eight assemblies for drill each year. The regulations governing field instruction and outdoor target practice will be issued soon.

4. Field days, which are understood to consist of athletic sports and contest, are not prescribed as part of armory or field instruction for the National Guard, and credit for such assemblies cannot be allowed as an armory drill nor as a day's field training.

Circular No. 1.

The following extracts from Circular No. 31, Militia Bureau, War Department, dated 12th December, 1916, are published for the information and guidance of all concerned:

1. The minimum strength for units of the National Guard will be the same as that prescribed by the Act of Congress, approved June 3, 1916, as set forth in General Orders No. 50, War Department, September 23, 1916, for the minimum (peace) strength of like units in the Regular Army.

2. For such units of the National Guard as are unable to obtain at once the minimum strength prescribed for like units of the Regular Army, the minimum strength, until June 30, 1918, will be as set forth in the following tables.

On and after July 1, 1918, all units of the National Guard will be required to maintain the minimum strength required for like units of the Regular Army.

3. The maximum strength at which National Guard organizations in the United States shall be maintained in time of peace shall be the minimum (peace) strength of the Regular Army.

Particular organizations in the United States may be authorized by the Secretary of War, upon application to the Militia Bureau, to be enlisted to the maximum strength authorized by the Act of Congress approved June 3, 1916.

National Guard organizations established outside the continental limits of the United States are authorized to maintain maximum strength.

6. So much of Circular No. 2, Militia Bureau, June 26, 1916, and Circular No. 24, Militia Bureau, November 7, 1916, as relate to the minimum strength and increase of strength of Engineer Companies, are rescinded. By direction of the Secretary of War,

WM. A. MANN,
Brig. Gen., General Staff,
Chief Militia Bureau.
(Cir. 31, M. B., 1916.)

PROCEDURE FOR DISCHARGE OF ENLISTED MEN OF NATIONAL GUARD, ENLISTING IN REGULAR ARMY.

The following instructions to the Regular Army recruiting service are published for the information and guidance of all concerned:

"TO ALL OFFICERS OF THE GENERAL RECRUITING SERVICE:

1. The following instructions are communicated to you by direction of the Secretary of War:

2. Enlisted men of the National Guard shall not be enlisted in the Regular Army, unless a discharge in writing from the National Guard authorities of a State, Territory or the District of Columbia has been duly prepared.

3. Where an enlisted man of the National Guard applies for enlistment in the Regular Army, and the State authorities authorize his discharge from the National Guard for this purpose, the Adjutant General of the State, Territory or District of Columbia Militia, shall send the discharge certificate to the recruiting officer to whom the applicant has applied for enlistment in the Regular Army. If the applicant is accepted for the Regular Army, the recruiting officer will forward the discharge by mail to the Recruit Depot or point where the enlistment of the applicant is accomplished. In case the applicant is not accepted for enlistment or fails to present himself for actual enlistment after acceptance, the officer concerned, who has in his possession the discharge certificate, when the case is finally settled, will return the discharge certificate to the Adjutant General of the State, Territory or the District of Columbia Militia, notifying him that the applicant was not enlisted in the Regular Army, and has not been discharged from the National Guard.

4. When the applicant is actually enlisted in the United States Army the enlisting officer will personally hand him his discharge from the National Guard of the State, and notify the Adjutant General of the State, Territory or District of Columbia Militia, that he has been discharged and enlisted in the Regular Army. Recruiting officers should correspond direct with the Adjutants General of State, Territory of Hawaii and District of Columbia Militia, on this subject." (M. B. 220, 81, December 18, 1916.)

DISTRIBUTION OF CIRCULARS, BULLETINS, AND GENERAL ORDERS.

Circulars issued by the Militia Bureau and bulletins and General Orders issued by the War Department will hereafter be distributed on the following basis:

(a) One copy for file in each company, troop, battery, and sanitary detachment.

(b) One copy for file at the headquarters of each battalion and regiment.

(c) One copy for file at the headquarters of the brigade.

(d) One copy for the Property and Disbursing Officer for the United States.

(e) Ten copies for The Adjutant General, one copy to be filed in his office and the others to be distributed as he sees fit.

At the annual armory inspection, officers inspecting organizations under orders of the War Department have been instructed to report whether or not complete files of those Circulars, Bulletins, and General Orders are on hand for ready reference in each organization.

5. Under the plan set forth above, the State will receive 90 copies of all further issues of General Orders, Bulletins, and Circulars, instead of the quota heretofore supplied. (M. B. 300.5, January 12, 1917.)

TENTATIVE REGULATIONS GOVERNING THE ACCOUNTING FOR FEDERAL PROPERTY ISSUED TO THE NATIONAL GUARD NOT IN THE FEDERAL SERVICE.

1. The following instructions for accounting for Federal property in each State, Territory, and the District of Columbia, will be followed, effective immediately:

(a) The property and disbursing officer of each State will make returns to the Militia Bureau for all property issued to the State by the Federal Government.

(b) The supply officer of each regiment, or separate organization, including ambulance companies and field hospitals, in a State, will make returns to the property and disbursing officer of that State for all Federal property, except medical property, in possession of the organization.

(c) Organization commanders and individual officers of an organization will sign memorandum receipts to the supply officer for all Federal property for which they are responsible. Each officer in the State, not attached to an organization, will draw property from a supply officer or the property and disbursing officer, giving memorandum receipts therefor.

(d) Medical officers will make returns to the property and disbursing officer for all medical supplies in their possession; they will hold all other classes of property on memorandum receipt from the supply officer of the organization to which they are attached.

(e) The property of each department must be carried and accounted for separately.

(f) The following is a list of forms to be used in accounting for property:

By the property and disbursing officer:

Militia Bureau.

No. 16 }
 No. 16a }
 No. 16b { Survey.
 No. 16c }

(g) Printed instructions on the various forms will be followed as far as practicable, except that *returns* for the property of each bureau will be kept in duplicate on the proper blanks, the duplicate copy being retained, the original being sent in with one copy of each voucher at stated periods.

(h) Returns will be submitted by the property and disbursing officer for quartermaster and engineer property on June 30 and December 31 of each year; for ordnance, signal, and medical property on March 31 and September 30 of each year.

(i) Each State officer accountable for property will submit a return to the property and disbursing officer, as follows: For quartermaster and engineer property on May 31 and November 30 of each year; for ordnance, signal, and medical property on February 28, and August 31 of each year.

(j) Any vouchers authorizing the expenditure or dropping of supplies from returns, will be furnished in triplicate to the supply officer, who will hold one copy with his retained return, sending two copies with his return to the property and disbursing officer, who will in turn retain one copy and send the other in to the Militia Bureau with his return.

2. In carrying out these regulations the service of officers and enlisted men of the Quartermaster Corps and the supply company of each organization should be utilized in making returns for, and keeping records of Federal property. The work on property accounting may properly be credited as drill for these officers and enlisted men.

3. The system prescribed here is similar to that used in the Regular Army, so that when ordered into Federal service there will be no change in the accounting for property by organization commanders. The supply officer will simply transfer his accounting from the State property and disbursing officer to the proper bureau of the War Department as soon as his regiment or organization is mustered into the Federal service.

4. A supply of blank forms enumerated in paragraph 1 (f) may be obtained by requisition in the usual manner. (M. B. 353.54, January 12th, 1917.)

Subject: Headquarters, Supply and Machine Gun Companies or troops—location and instruction of—

1. Under the provisions of the Act of June 3, 1916, the companies named above are no longer provisional companies or troops. They are organizations complete within themselves forming an integral part of a regiment, and they are subject to the same rules and regulations as the lettered companies, troops or batteries of a battalion or squadron.

2. In order to receive credit for drill, a member of an organization must drill or participate in exercises with his own organization. However, the personnel of headquarters and supply companies or troops is such as to permit certain exceptions to be made to this regulation without loss of efficiency in the training of these organizations. The exceptions authorized are fully stated below:

HEADQUARTERS COMPANY OR TROOP.

(a) The captain (adjutant in infantry and cavalry), lieutenant (in field artillery), regimental sergeant major, regimental color sergeants, first sergeants, mess sergeant, supply sergeant, stable sergeant, sergeants, sergeant bugler, corporals (field artillery), cooks, buglers (field artillery), mechanic (field artillery), privates, first class, and privates, will be located at one station. Credit for drill will be given these members only for drills or exercise with this portion of the company.

(b) The battalion or squadron sergeants major are authorized to be located at the stations of their respective battalion or squadron commanders, and credit for drills will be given them for periods of instruction given them by their respective battalion or squadron commanders or battalion or squadron adjutants.

(c) The band section, consisting of 27 members, is authorized to be located at a station other than of its company or troop, provided there is a commissioned officer and an organization of the same arm at that station, and credit for drills will be given provided the drills or exercises are supervised by a commissioned officer.

(d) The horseshoer and saddler (cavalry and field artillery) are authorized to be located at a station other than that of the company or troop, where a company, battery, or troop of the regiment is stationed, provided there are no animals issued to the headquarters company or troop, and credit for drills will be given when they drill with an organization of their own arm, provided they are horseshoers or saddlers respectively by occupation.

SUPPLY COMPANY OR TROOP.

(a) The captain, lieutenant (in cavalry and field artillery), regimental supply sergeants, first sergeant, mess sergeant, stable sergeant, corporals, cooks and privates (field artillery), will be located at one station. Credit for drill will be given these members only for drills or exercises with this portion of the company.

(b) Horseshoers, saddlers and wagoners are authorized to be located at a station other than that of their company or troop, where a company, battery, or troop of their regiment is stationed, provided, for horseshoers and saddlers, that there are no animals issued to the supply company. Credit for drills will be given when they drill with an organization of their own arms, provided they are horseshoers, saddlers or teamsters respectively by occupation.

MACHINE GUN COMPANY.

No exceptions.

3. Detachments of headquarters and supply companies or troops authorized for battalions of field artillery and squadrons of cavalry not forming a part of a regiment, will be located at one station except horseshoers, saddlers and wagoners. Credit for drill will be allowed the members of these detachments only for drills or exercises with their own detachments. The exceptions extended to horseshoers, saddlers and wagoners of headquarters and supply companies will be extended to these members of detachments of headquarters and supply companies.

4. The attendance of any member of a headquarters or supply company or troop, or of a detachment of headquarters or supply company or troop authorized to drill with a company or troop other than his own, will be recorded on the form "Record of Monthly Attendance at Drills," with the organization with which he drills. However, it will be the duty of his company or troop commander to secure evidence of his attendance at such drill and report the attendance of such member on the form "Record of Monthly Attendance at Drills," of his own company or detachment.

5. The War Department will allow a reasonable time for these companies to be reorganized with regard to the location of their personnel as indicated in this letter; however, the members thereof cannot receive credit for drill except as herein provided. (M. B. 353.54, January 13, 1917.)

BY ORDER OF THE GOVERNOR.

HENRY M. WARFIELD.

Official.

The Adjutant General.

STATE OF MARYLAND.

OFFICE OF THE ADJUTANT GENERAL,

ANNAPOLIS, 7th February, 1917.

Circular No. 2.

The following is published for the information and guidance of all concerned :

QUARTERLY SERVICE REPORT OF
COMMISSIONED OFFICERS.

Every commissioned officer of the First Brigade, National Guard of Maryland, will make out this report in duplicate on the last day of each quarter ending 31st March, 30th June, 30th September and 31st December, and send both copies to his immediate commanding officer, who will, before transmitting the same, initial on both copies so much of the duties performed by the officer whose name appears thereon as he may have personal knowledge of, and then sign the certificate thereupon.

Within five days after the end of the quarter one copy will be sent direct by the commanding officer to the Chief of the Militia Bureau, War Department, and the duplicate will be sent to The Adjutant General of the State through the Commanding General of the Brigade. Each commanding officer will on the same date forward to this Office through the Commanding General of the Brigade a memorandum reporting the names of the officers who have filed this report. A separate memorandum reporting the names of officers who have failed to do so will be forwarded to the Commanding General of the Brigade for appropriate action by that officer.

Form No. 106, Militia Bureau, W. D., will be used by all officers.

ANNUAL REPORT OF PHYSICAL EXAMINATION OF
COMMISSIONED OFFICERS, NATIONAL GUARD.

Form No. 378-1, A. G. O., W. D., will be used in making the annual report of physical examination of officers of the National Guard of Maryland and of the National Guard Reserve in compliance with National Guard Regulations. All defects, whether disqualifying or not, will be carefully recorded hereon. Completed reports will be mailed direct to The Adjutant General of the State.

In case of disqualification for active military service, the reasons therefor will be fully set forth therein, and in such cases a duplicate copy of the report will be made to be filed with the Chief of the Militia Bureau for action of the Secretary of War.

The annual physical examination of commissioned officers of the National Guard will be made during the month of November in each year. The Commanding General of the Brigade will arrange the necessary itinerary. The officers of staff, department and corps will be examined upon dates selected by the Commanding General.

The report in the case of each officer will be forwarded to this Office within five days after the 30th of November.

BY ORDER OF THE GOVERNOR.

HENRY M. WARFIELD,

Official.

The Adjutant General.

STATE OF MARYLAND,
OFFICE OF THE ADJUTANT GENERAL,

ANNAPOLIS, 28th February, 1917.

Circular No. 3.

The following circular from the Militia Bureau, War Department, is published for the information and guidance of all concerned:

WAR DEPARTMENT,
MILITIA BUREAU,
Washington.

M.B. 013.14—General.
February 21, 1917.

From: The Chief, Militia Bureau.

To: The Adjutants General of all States, the District of Columbia,
and all Inspector-Instructors.

Subject: Federal recognition, National Guard.

1. It is requested that no additional oaths be forwarded to the Militia Bureau from officers and enlisted men belonging to organizations that have been extended formal Federal recognition or organizations of the National Guard under the provisions of the Act of Congress approved June 3, 1916.

2. When an organization, not yet recognized as National Guard, becomes qualified for such recognition by the required number of officers and enlisted men having taken the new oath, a certified list of the names of the officers and enlisted men of such organization should be forwarded to the Militia Bureau. No oaths should be sent. The certificate should be signed by the organization commander and should be in the following form:

Designation of Organization.

I certify that the following-named officers and enlisted men of———
———have sworn and subscribed to the oath for officers and contract oath for enlisted men required by Sections 73 and 70, respectively, of the Act of Congress approved June 3, 1916, on the dates set opposite their respective names.

3. Attention is invited to Circular Letter M.B. 013.14—General, January 22, 1917, and Circular No. 31, Militia Bureau, December 12, 1916.

WM. A. MANN,

(Seal.)

Brig. Gen., General Staff.

Circular Letter M.B. 013.14—General, 22nd January, 1917, referred to in 3rd paragraph of foregoing Circular Letter is as follows

WAR DEPARTMENT,

MILITIA BUREAU,

Washington.

M.B. 013.14—General.

January 22, 1917.

From: The Chief, Militia Bureau.

To: The Adjutants General of all States, the Territory of Hawaii, the District of Columbia, and to all Inspector-Instructors.

Subject: Federal recognition.

1. Some confusion has arisen as to Federal recognition of the National Guard and Organized Militia, and in order that there may be a better general understanding of the subject, information is furnished as follows:

2. When a State wished to present a body of men as Organized Militia under the so-called Dick Law, there was a Federal inspection to determine whether or not they complied with the Federal requirements, and upon the result of that inspection Federal recognition was extended or denied to the personnel and to the organization.

Further annual inspections also determined whether or not such Federal recognition was to be continued.

3. When the Act of June 3, 1916, took effect, the personnel had the choice of remaining in the status of Organized Militiamen under their original obligation, or of taking the new oath, which embodied an obligation to the Federal Government, and thus qualifying for the new status of National Guardsmen.

4. When the call to Federal service came, there had not been sufficient time for the transition to a National Guard status, and the call was made to include both Organized Militia and the National Guard.

The reception into Federal service operated to give effective Federal recognition *for such service* to the personnel and the organizations so received, whether Organized Militia or National Guard.

5. Organized Militia, not in Federal service, has been called upon to comply with the new law, both as to obligation to the Federal Government, and as to a change in organization, where changes were necessary.

This change of status is desirable, but not necessary, for organizations and personnel *in the Federal service*.

When an organization has a sufficient number of its personnel qualified as National Guard—which has been taken to be 80 per cent. of its required minimum enlisted strength, with a proper quota of officers—it is considered qualified for recognition as a National Guard unit, whether in Federal service or not, and the Militia Bureau has been engaged in extending this recognition as rapidly as possible after an examination of the new oaths and lists that have been submitted.

This recognition as a National Guard unit is entirely apart from the recognition of the personnel, which automatically results upon the taking of the oath.

6. When it becomes apparent that the period allowed for transition from Organized Militia to National Guard should be brought to a close

for a particular organization, not in Federal service, which fails to comply with the new law, recognition as Organized Militia will be formally withdrawn by specific notification in each case, but until that action is taken, the recognition heretofore extended to the organization as Organized Militia will continue, although it will not entitle it to Federal pay or aid of any description, as the appropriation made extends to National Guard only.

7. Organizations that are now in Federal service are on a different basis. Recognition will not be withdrawn from them until they have been mustered out of Federal service and have had a reasonable time to comply with the new law after being so released.

It should be clearly understood that the acceptance for muster into Federal service of an organization whose members were all Organized Militia or part of Organized Militia and part National Guard did not of itself automatically extend recognition to the organization as a unit of the National Guard under the Act of June 3, 1916.

BY ORDER OF THE GOVERNOR.

HENRY M. WARFIELD.

Official.

The Adjutant General.

STATE OF MARYLAND,
OFFICE OF THE ADJUTANT GENERAL.

ANNAPOLIS, 9th March, 1917.

Circular No. 4.

The following instructions from the Militia Bureau, War Department, are published for the information and guidance of all concerned.

Immediate steps will be taken by commanding officers concerned to have the records referred to prepared and held in the records of their respective organizations.

WAR DEPARTMENT,
MILITIA BUREAU,

WASHINGTON, March 3, 1917.

From: The Chief, Militia Bureau.

To: The Adjutant General of all States, Territory of Hawaii, and District of Columbia.

Subject: Records of officers and enlisted men.

1. The mobilization regulations for the National Guard called into the service of the United States provide in part as follows:

Records of officers: The individual records of officers required by the War Department are as follows:

* * * * *

Physical examination of officers. Form 378-1, A. G. O.

* * * * *

Records of enlisted men: The individual records of enlisted men required by the War Department are as follows:

(a) Enlistment Papers, Form 22-1, A. G. O. New enlistment papers will be prepared for soldiers whose enlistments have not been recorded on this form. In this case the words "on the" will be substituted for the word "this" in the oath of enlistment, making the oath an acknowledgment by the soldier that he voluntarily enlisted on the date of his actual enlistment in the National Guard or Organized Militia. Appropriate changes will also be made in such cases in the declaration of the applicant on page 2 of the form.

(b) Report of Physical Examination, Form 10, Organized Militia (or 135), A. G. O.) The space on pages 4 and 5 of this form for the physical examination at place of acceptance will be left blank.

* * * * *

Report of physical examination: The correctness of the data contained in reports of physical examinations on file with the records of the company, will be carefully verified by the medical examiner (of the Regular Army) or one of his assistants (at the mobilization camp), who will add an indorsement on the past page of the form, stating whether the soldier is qualified or disqualified for service, and if disqualified, the reason therefor. In either case all defects not recorded in the body of the report will be noted in the indorsement.

* * * * *

2. It is requested that steps be taken to have these records prepared as soon as possible, and held in the records of the organization.

WM. A. MANN,

Brigadier General, General Staff.

BY ORDER OF THE GOVERNOR.

HENRY M. WARFIELD,

Official.

The Adjutant General.

STATE OF MARYLAND,
OFFICE OF THE ADJUTANT GENERAL,

ANNAPOLIS, 3rd April, 1917.

Circular No. 5.

The following instructions from Militia Bureau, War Department, are published for the information and guidance of all concerned:

WAR DEPARTMENT,
MILITIA BUREAU,
Washington.

MB. 240.7
March 23, 1917.

From: The Chief, Militia Bureau.

To: The Adjutants General of all States, Territory of Hawaii, and District of Columbia, and to all Inspector-Instructors.

Subject: Pay of officers and enlisted men of the National Guard.

The following modifications are authorized in connection with paragraph 2 (a). Circular letter (MB. 325.11) October 19, 1916, and paragraph 2 (a) of Circular No. 20, Militia Bureau, 1916, for all mounted organizations and for the Coast Artillery:

(a) Two drills held within a week, commencing Sunday and ending Saturday, inclusive, may be counted as one assembly; *Provided*, That the attendance at each drill be not less than one officer and 30 per cent. of the authorized minimum enlisted strength, or of the enrolled strength where it exceeds the authorized minimum, of a company, troop, battery or detachment: *Provided further*, That no officer nor enlisted man can secure credit for more than one drill of this character even though he may attend both, and his attendance at one drill and not both drills shall be considered in computing the percentage required for the semi-annual period: *Provided further*, That the average attendance required for each semi-annual period as prescribed in paragraph 2 (a) referred to above is not in any manner waived or changed.

(b) The drills authorized in the preceding paragraph will be recorded separately on Forms 100 and 100-a, Militia Bureau, using a column for each drill to show the attendance thereat.

(c) Under the provisions of paragraph 2 (a) referred to above, officers and enlisted men in a company, troop, battery or detachment cannot qualify for pay separately. Both officers and enlisted men must have the required average attendance for the semi-annual period for either class to receive pay.

STATE OF MARYLAND,
OFFICE OF THE ADJUTANT GENERAL,

ANNAPOLIS, 20th August, 1917.

HEADQUARTERS MARYLAND STATE GUARD.

General Orders No. 1.

EXECUTIVE DEPARTMENT.

ANNAPOLIS, MARYLAND.

4th August, 1917.

Executive Orders.

By virtue of the authority conferred upon the Governor of Maryland, as Commander-in-Chief, in Article 65, Code of Public General Laws of Maryland, and in conformity with Chapter 26, of the Acts of the General Assembly of Maryland, Extraordinary Session of 1917, it is hereby ordered that a regiment of infantry, to consist of the necessary field, staff and non-commissioned staff officers, headquarters and supply companies, and twelve lettered companies, the latter companies to consist of not more than three commissioned officers and sixty enlisted men, to be designated

Second *Regiment,*

Infantry, Maryland State Guard, be organized, equipped and armed.

The location of the headquarters and of the several units of the regiment shall be as selected by the Adjutant General of Maryland with the approval of the Governor.

The Adjutant General of Maryland will issue at the earliest day practicable the necessary orders to effect this Order.

EMERSON C. HARRINGTON.

Governor.

BY ORDER OF THE GOVERNOR.

HENRY M. WARFIELD,

The Adjutant General.

Official.

STATE OF MARYLAND,
OFFICE OF THE ADJUTANT GENERAL,

ANNAPOLIS, 10th September, 1917.

Bulletin No. 1.

The following Act of the General Assembly of Maryland, in extraordinary session, June, 1917, authorized the organization of the

MARYLAND STATE GUARD.

CHAPTER 26.

AN ACT to add nine additional sections to Article 65 of the Annotated Code of Maryland, title "Militia," as said Article was repealed and re-enacted by Chapter 311 of the Acts of the General Assembly of Maryland of 1916, said additional sections to follow immediately after Section 90 of said Article and to be numbered, respectively, Sections 91, 92, 93, 94, 95, 96, 97, 98 and 99, the same providing for the organization, duties and maintenance of the Maryland State Guard.

Section 1. Be it enacted by the General Assembly of Maryland, That nine additional sections be and they hereby are added to Article 65 of the Annotated Code of Maryland, title "Militia," as said Article was repealed and re-enacted by Chapter 311 of the Acts of the General Assembly of Maryland of 1916, said additional section to follow immediately after Section 90 of said Article, to be numbered, respectively, Sections 91, 92, 93, 94, 95, 96, 97, 98 and 99, and to read as follows:

91. The Governor is hereby authorized to recruit and organize and to train, equip, arm, ammunition and maintain a body of armed troops within this State, to be known as the Maryland State Guard. Such State Guard not to exceed, however, one thousand officers and men. Such troops shall be recruited from the male citizens of this State, and for the purpose of organizing said Maryland State Guard, the Governor shall have the power to call for volunteers, and if there be an insufficient number of volunteers, or no volunteers, then the Governor shall have the power to draft as many of the male citizens of this State as are required, such draft or drafts to be made by the same officials and in the same manner as the drafts authorized by the provisions of Chapter 311 of the Acts of the General Assembly of Maryland, of 1916, and any amendments thereto, or by any other law or laws now existing or hereafter passed whereby the Governor is authorized to draft. The Maryland State Guard shall not form part of the National Guard of the State, but service therein shall not constitute an exemption of any kind from service or liability to service in the National Guard of the State, or in the military or naval forces of the United States, but all members of the Maryland State Guard shall be liable to such service to the same extent as if they were not members of said Maryland State Guard.

92. The Governor, from time to time, by executive order, shall make regulations for the number of said Maryland State Guard, the age limits for the member thereof, the manner, form and time of enlistment therein, and discharge therefrom, and for the organization, physical requirements and examinations, training, officering, government, number and strength of units, maintenance, armament, equipment and ammunition of the said Guard. The Governor may admit existing organizations or units to membership in the Maryland State Guard. The title to all uniforms, armament, ammunition and equipment of every kind shall be and remain in the State.

93. The Governor shall call the Maryland State Guard, or any portion thereof, into active service whenever and as often as and for such period of time or time as, in his judgment, the public interest and safety require, and he shall assign the said Guard, or any unit or units or members thereof, to such duties and at such place or places within this State, as he, in his judgment, deems proper. When so called into active service the Maryland State Guard shall have and exercise within this State all powers necessary or appropriate to preserve peace and to guard and protect the rights of persons and property, and to this end they may, when in active service, exercise all such military powers and may do all such acts and things as the National Guard of the State may exercise or do when called into active service.

94. The officers of the Maryland State Guard shall be appointed by the Governor upon the recommendation of the Adjutant General, and, upon like recommendation the Governor shall remove, promote or reduce such officers. Such officers shall have and exercise over their several commands the same military authority as that specified for the duly chosen officers of the National Guard under the laws of this State. The Governor shall have the power to order any officer on the Retired or Unassigned List of the National Guard into service in the Maryland State Guard, and may grant to the said Maryland State Guard the use of any and all armories owned or leased by the State, to the extent that such use may not, in his judgment, be inconsistent with the needs of the National Guard. The Governor, if he deems advisable, may order the Adjutant General to assume command of the Maryland State Guard, when said Guard, or any part thereof, is in active service.

95. The system of discipline and exercise of the Maryland State Guard shall conform, as nearly as may be, to the system provided by law for the National Guard, and there shall be established for the Maryland State Guard, under the supervision and direction of the Adjutant General, such Military Courts and Courts-Martial as may be necessary, which shall be constituted as similar courts provided for the National Guard are constituted, and which shall have and exercise with respect to the officers and men of the Maryland State Guard, whether in active service or not, all the powers and jurisdiction which the Military Courts of this State and the Courts-Martial of the National Guard have and exercise with respect to the National Guard when called into active service, with the same procedure and the same powers to issue process and to impose and enforce discipline and punishment. Fines and penalties may be collected in the same manner as provided by law for the National Guard.

96. When called into active service, the officers and men of the Maryland State Guard shall receive such compensation while on active service as may be fixed by the Governor, provided, that the same shall not be at a greater rate than that provided by the laws of this State for the officers and men of the National Guard of this State when in active service for the State.

97. The Governor shall have the power to disband the Maryland State Guard or any portion thereof, whenever, in his judgment, the same is consistent with the public interests and safety.

98. The Governor is authorized to employ such assistants and clerical help, if any, as he may find necessary to enable him to carry this Act into effect.

99. All expenses and disbursements authorized by this Act shall be paid out of any moneys appropriated for such purposes; such payments to be made, from time to time, on the order of the Executive Committee

of the Maryland Council of Defense, by and with the sanction and approval of the Governor; such orders to be directed to the Comptroller, who shall draw his warrant upon the Treasurer for the amount thereof as in law provided.

Sec. 2. And be it further enacted, That this Act is hereby declared to be an emergency law and necessary for the immediate preservation of the public safety, and being passed upon a yea and nay vote, supported by three-fifths of all the members elected to each of the two Houses of the General Assembly, the same shall take effect from the date of its passage.

Approved June 27th, 1917.
